Florida Keys Travel Reference Map 4th Ed 2014 1:120,000

Synopsis

This is one of our quietly-selling steady titles that one tends not to notice until it suddenly runs out of copies. This fourth edition has a new cover photo, and a new locality map on the back cover that REALLY emphasizes just how close Havana and Key West are to each other! The map itself is little-changed from the previous edition; we have visited the area twice in the past couple of years and feel that the information is both accurate and comprehensive. The map also includes an inset of Key West showing every single street in the town

Customer Reviews

Used this map as we drove Key West to Key Largo and back. Very glad we purchased this before our trip as it is THE BEST map of the Florida Keys we found. Included POI were helpful.

My only complaint about this great map is that it lacks the Overseas Highway Mile Markers that are so widely used in every guide book about the Florida Keys.

An indispensable tool for planning our trip to the Florida Keys, particularly used in conjunction with a good guide book. The detail that this map has is perfect for finding your way around in the Keys.

Nice map, but it needs more milepost data

We haven't taken the trip yet, but it looks like it will be very useful Even the Auto Club didn't have a

suitable map.

love it

Very informative.
