Customer Reviews

This is so bitter sweet. I have been a hardcore fan since Firebolt first released. And to read this book really made me emotional. First, let me say how honored I am that I was a beta reader for this book, but some of my suggestions made it into the final book. I honestly have no words. I have loved Blake from the start. There was just something about him that amazed me even when he was an a\$\$ and fighting his dark side. I had always wished that he and Elena could be together. In Starlight we got to see so many sweet Blake and Elena moments. It was so beautiful and moving to see their

love for each other grow and blossom into something that is so beautiful. Tabatha has never been one of my favorite characters in the series. I saw her as weak and desperate. She showed us more of that in Starlight, but I have to say that after all of those times we have seen her be a weak little b!*ch, she majorly redeemed herself. She turned out to be a honorable dragon. Arianna also redeemed herself in this book. She has really grown up. And I am happy for her. So many amazing things happened in this book that made it not only epic, but definitely my favorite book so far this year. So many surprising things happened that had me going "oh sh!t" while sitting on the edge of my seat biting my nails like a crazy lady. And on the other hand I was riding an emotional rollercoaster while crying my eyes out. I think I may have used a whole box of tissues. haha. But over all I am very pleased at everything that happened. The war was amazing, the dent was beautiful. The scenes with Elena and Blake were sweet. All of the characters were amazing. Becky, George, Sammy, Dean, Sir Robert, Isabel, just everyone. Loved, loved, loved. If you are new to The Dragonian series, please give it a read starting with Book one, Firebolt. You will love it. Thanks Adrienne Woods for writing a kicka\$\$ book, but most of all, an amazing series!

I seldom do reviews any more, but I just finished all five of the Dragonia books, and I really loved them--the characters were real, three-dimensional, wonderfully drawn characters. The plotting was never dull, even though the books were long, and I never felt that they were too long. I loved the way the author was able to portray emotions--friendship, love, hate, anger, tension--all are wonderful. However--and this is why four instead of five stars--all of these books desperately need editing. I read a great deal of YA and adult urban fantasy and science fiction, and I find that many talented young writers have a terrific problem with grammar, punctuation, proofreading, etc. First--never depend on spellcheck; it will get you every time. It will not catch errors if the word is a real word, even if it is the wrong word. Second--yikes--please learn to use commas, semi-colons, and use no more run on sentences. Third--it is clear that these books went to press without a final run-through as there are many places where apparently one sentence cuts off in the middle of a new sentence. I wanted to grab a red pencil. If we are going to pay \$4.99 for a Kindle book, I think that new and better edited versions should be provided. Having said that, I am still feeling the effects of the last book--the series is well worth reading. I don't think I would have ended it quite the way it was ended, and I should never have read the teasers for the spinoffs. I was so emotionally attached to the principal characters, I didn't really want to hear what happened to them all long after the main story ends and would probably have enjoyed an epilogue summarizing the year after the climactic events. But of course, they're not my books! They are a great read and many will not mind the

editing issues pointed out above.

Starlight is the powerful, emotional, action packed conclusion to a 5 book series known as The Dragonian Series. This book will not disappoint as it concludes the journey of our heroine, Elena, and her quest of self discovery, her search for love, answers to her mysterious upbringing, and her determination to save her father and help rule Paegeia. Though it is a happy ending, it is not without its losses and heartbreaking moments. Starlight will make you laugh and cry and will fill your heart with the dedication of the people of Paegeia! I could not have imagined a better way to end the series. Elena was such a strong character and I keep reading other reviews about others thinking she is annoying and whiny, but you have to remember she is only 19 and up until the night that Herbert/Jako died, she led a very sheltered, unusual life with only her father in her life. She was thrown in to the world of Paegeia and Dragonia and went through several major life changes while dealing with normal teenage emotions and hormones. I felt that she handled everything the way a strong, intelligent young woman should have. Elena fought valiantly to stand up to the Ancients and to save her father and Etan. I would not have changed her character at all. I fell in love with Blake and the idea of what a dragon actually is. I thought this idea was unique and interesting. Blake changed for the better and conquered the darkness. I admired what he sacrificed for Elena at the end of the book as well. I am so glad that I started this series last month. I laughed and cried along with the characters of the books. I watched an amazing sisterhood grow between Elena, Sammy, and Becky, and I watched the main characters grow up and accomplish amazing feats of bravery. This series will be one that stays with me.
