Came across this book while searching for alexander hamilton, ive got to say this book is actually very intriguing to read having seen the new york city broadway show. the collection in this book is not only entertaining but extremely informative, and provides historical insight which ties seamlessly into not only the show, but anything regarding alexander hamilton. would recommend to anyone who liked the show and are interested in american history.

Everything you need to deeper understand the parts of the musical that reference these documents.

Reading Hamilton's own words is so soothing to the soul.

No, I think we ordered the wrong thing. We wanted "Hamilton- the Revolution " by Lin-Manuel Miranda. Now we have to try to figure out how to return it
