True Crime Stories Volume 7: 12 Shocking True Crime Murder Cases (True Crime Anthology)

Synopsis

Open the pages of this true crime anthology to learn about twelve more true crime stories that shocked communities and grabbed headlines around the world. You will learn about tragic cases of family annihilation and relationships gone horribly wrong. Among the most shocking of these cases is the murder of the Westerhuis family in South Dakota, who on the outside appeared to be an all-American family, but inside they harbored a felonious secret. A trio of politically motivated murder stories will also keep you intrigued and glued to the pages of this book. Two of the cases involve hate crimes committed in the United States, while the other was the first major act of Islamic terrorism in the U.S. The three cases were also examples of organized crime, much like the murder of Australian biker Wayne Rodney Schneider. You may be shocked when you learn that the criminal investigation of Schneider's murder has uncovered suspects from two different continents and that the actual crime took place on a third continent. Unfortunately, many of the cases profiled in this book involve innocent victims, such as nine-year-old Amber Lucius who was murdered by her own mother. Now that you have been warned, open the pages of this book and learn about twelve more high-profile true crime murder cases. You may be disturbed at times, but if you enjoy learning about forensic science and criminal investigation procedures, then this is the book for you!

Another great anthology from Jack Rosewood. It contains 12 cases, of which I only knew about 1/2 of them, so this was great for me. He provides background information and then the crime itself. Of course it is well written and well researched. There is a variety of cases from spousal murders, family murders, a couple of hate crimes and some politically motivated. The stories are all basically sad, but show the sadistic side of humanity. Everything is straight and to the point. None of the killers are glorified, but rather, victims are the focus, which I like very much. It is a fast and good read. I highly recommend it!

I have read all of this series and honestly I couldn't pick a favorite, I enjoyed every one. This one cited several different cases. Teenage killers (very sad), women killers and some organized crime thrown in for good measure. The teenage killers are the most disturbing because the reasoning makes no sense. I like that Jack acknowledges the victims. Too many times the perpetrators get more attention than their victims and that's a shame. Reading any of Jack's books will be interesting and enlightening.

The compilation of True Crime Stories: Volume 7 included 12 criminal acts of sadistic brutality. The author provided interesting back-story text, including thoughtful historical information that framed the violence of impulsive inhumanity. The collection of true crime murder cases was a great mix of crimes against society, youthful violence and murderous revenge perpetrated against family members. The narratives of retaliation and predatory behaviors, summarized with legacies were an enjoyable addition to the genre. Highly recommended.

I enjoy every true crime I have read from Mr. Rosewood, and this doesn't disappoint. I like his style of writing & the wide range of serial killers he introduces you too. Read this, you will not want to put it down until it's finished!

Any communication exists for one of three purposes: to inform, to entertain, to persuade. Mr. Rosewood both informs and entertains me. He presents the facts of the crimes and criminals in an exciting narrative.

I love this whole entire series. Jack is a fantastic writer, I have read everything he has written. This series does not disappoint, if you are into true crime I highly recommend anything from this writer.

A+++
