Jane's Gem Combat Aircraft

Synopsis

Collins/Jane Combat Aircraft is a compact guide to modern fighters, bombers, helicopter gunships, maritime aircraft and advanced trainers in service with the world's airforces. Details of over 100 aircraft are given, drawing in information from the ultimate military authority, Jane's Information Group.

Customer Reviews

Wonderful format. Jane's books on aircraft are as accurate as can be imagined. How they obtain all this confidential information has puzzled people for many years. When the data is de-classified years later, it turns out that Jane's had it correct. Anyone interested in geopolitics, aviation, military science or impressive machinery would do well to buy this little book.

I couldn't find another product that with a better quality. Also, I like its price, cheap. I like the quality of this product Very inexpensive in comparison to other options on the market I absolutely love the product All in all a great purchase. I absolutely love this product
