## Customer Reviews

Founded in 1947, Hal Leonard Corporation has become the world's largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

LOVE this book! I am a professional voice instructor and have been using this book for years - perfect for young voice students! The songs are nearly all in a good range for beginners - a few get a little high but I always save those for last. The included CD is not my favorite - most of the songs are too fast and don't take breathing into account. Here's a song list, for those of you who are curious: Happiness Tomorrow Born To Entertain Reflection Any Dream Will Do Maybe The Work Song Let Me Entertain You Consider Yourself My Favorite Things We're All In This Together The Candy Man Castle On A Cloud Cruella De Vil Ev'rybody Wants To Be A Cat Feed The Birds I Don't Need Anything But You I Got The Sun In The Morning I Know Things Now I Whistle A Happy Tune I'd Do Anything It's The Hard-Knock Life Les Poissons Let's Go Fly A Kite Little Lamb On The Good Ship Lollipop Part of Your World So This Is Love (The Cinderella Waltz) When You Wish Upon A Star

This is a new music book this year and so far, I am very pleased with it and my students love it. As a voice teacher with many years of experience, it has always been a challenge to find a collection of songs with enough variety to appeal to students of varying levels of vocal experience. So far, this book satisfies on so many levels. There are songs for both boys and girls and with enough music selection to progress from early beginner to low intermediate. Recommend this book for children middle school and younger. The CD is also very good. Unlike so many other accompaniment CD's the pianist wasn't afraid to nuance and emote, rather than just play the notes. For an unorchestrated CD, you will be pleased. WATCH OUT... Check CD IMMEDIATELY upon arrival to ensure it's not damaged in any way. I have received numerous orders from and the majority have been as ordered. However, I have been burned by products that weren't as advertised or slightly damaged, and my laziness cost me in my ability to not be able to return the product. Be careful to shop with a seller that allows for easy returns with no restocking fees. I am able to always find something to buy to get FREE shipping from and then there's never a problem returning. I love this book... hope you do too.

The new books are listed as though you can stream the music online. We bought a used addition

with a missing the cd thinking we could still go to the website to stream the missing music. You can't. There is some sort of access code that is not in the book. In fact, I can't see where you would enter the code on the Hal Leonard website at all. It must be something you get with a new book. The lesson here is don't buy a used book with out the cd thinking you can still hear the music. It makes this pretty much useless to us. We can pull up lyrics and music on line to learn from, but if you want to go to an audition with sheet music/ music you've actually practiced with, a used book with out the cd won't help unless they say they are giving you an access code to download it.

I am giving this as a gift to my daughter so I'm not sure if it will be a big hit but I got it b/c all the review refer to the CD that has the accompaniment... my book has no CD, just a website w/ access code. This might not end up being a big deal but I would have preferred a CD so she could use it in her room on her CD player clock radio. I'm just confused since so many of the reviews specifically refer to a CD that comes with it...?

The songs are older Disney tunes, but it's a nice collection. We bought it for the CD accompaniment and that is disappointing because the songs are a little too fast. There are directions that say you can put it into your computer and slow it down with provided software, but we need to play it out of the house and so that doesn't help us.

This is a nice book. I'm teaching a couple of 11 y/o and I find the songs all very appropriate for their age. They want Broadway styles, but so many songs are really not appropriate for younger kiddos. This fills a niche without my having to search and search for good appropriate songs. Whether you're a vocal teacher or a mom looking for age appropriate music for your kiddos, you will find this useful and enjoyable for preteens and younger. They also give a site where the accompaniment for the tunes (tracks) are available for download, included in the price of the book. I sort of wish they'd included a CD, but it's certainly an acceptable alternative.

Absolute nightmare to download all of the songs. Someone at Hal Leonard was not thinking when they designed the download feature to be song by song with no "download all" option. Very time consuming.

Both Vol. 1 and Vol. 2 are excellent collections of Broadway songs for children and young teens. A lot of Disney songs are included.
