## Customer Reviews

This is the first music book I've bought from , and I guess I have to calibrate myself to the reviews. I don't consider myself to be much of a musician, so I thought that, based on the reviews, this book would be more challenging than it is. The arrangements are perhaps a bit more creative than the regular sheet music that you buy, but they are not really any fancier or more difficult, just different. For example, the left hand rarely plays more than one note at a time.

Love his music and love this book! Grew up listening to this CD so it is awesome that know I am able to play most of it. I wouldnt say it is the most difficult but does require good touch and timing while playing to make it sound really good

I have this on my iPod & really like the music. I first got it in the easy version but decided to get the regular version...it's a little harder so I'll have to work on it. I play professionally at a restaurant & play these songs whenever I have children eating with their parents.

Usually, you don't come across sheet music that's accurate, but with Jim Brickman's "The Disney Songbook," you don't have to worry about that. I am very satisfied with this product and it makes a great gift for any piano player that likes Disney and Jim Brickman's stylings. Jim Brickman approved the arrangements himself! It really IS the matching sheet music to the "Disney Songbook." You won't be let down!!! :)

If you love piano, you will love this lovely book of best-loved songs.

Arrangements sound like his recordings. Challengingly enough to sound authentic without frustrating.

Love it, great music. more advanced than the average high school piano player, but if you love it enough it'll make you practice more. I got this a while ago and now I'm in my second year in college and still play it :-)

Exactly what we wanted!! Fun music to play.
