Redline (Orca Soundings)

Synopsis

Jenessa escapes to the sanctuary of her car and the freedom of the open road, where she can outrun her memories...if only for a while. She finds a kindred spirit in Dmitri, a warm-hearted speed demon who races at the track. But when Jenessa falls in with a group of street racers and its irresistible leader, Cody she finds herself caught up in a web of escalating danger. When her penchant for risk-taking spirals out of control, Jenessa has to find a way to break the self-destructive patterns she's built before anyone else gets hurt.

Book Information

Customer Reviews

"Taut and intense, this offering will appeal to readers who are looking for a fast read with non-stop action. The characters are strong and likeable...The plot never slows, and struggling readers will have no time to lose focus. This title is perfect for school libraries, especially those with a collection of high interest, low level titles." (Library Media Connection 2012-01-01)"An engaging and exciting read. Jenessa is a realistic and strong character who is likable, despite the poor decisions she makes in the novel...Redline is very well written, and, despite the low reading level, the writing does not feel stilted or simple; rather, the short sentences make the books feel punchy and in tune with its fast-paced content. Redline is a thrilling contemporary novel that deals with serious issues of death and mourning and is an excellent choice for teen readers. The novel is action-packed and suspenseful, making it a quick and engaging read. Since the language is simple, and the reading

level is low, Redline is a good choice for teens who read below grade level or for those who are learning English as a second language." (CM Magazine 2011-09-30)"Orca has another hit. A street racing book with a female point of view is a rarity which both genders will race to finish." (Resource Links 2011-10-01)"Well written and discusses greater issues than drag racing...Highly recommended for inclusion in any high school or public library collection." (Tri State YA Book Review Committee 2012-01-01)

To numb the guilt she bears after the death of her best friend, Jenessa turns to speed in the form of street racing.

Thanks to Puget Sound Council for the review copy. Jessica, believing she has caused the death of her best friend, drowns her sorrow in fast driving and questionable actions with new friends in a car racing gang. She becomes involved with one of the racers, unwilling to admit that his abuse is something she needs to get away from. Although there is no sexual contact mentioned, there are allusions to it (unbuttoning pants) which might be objectionable to some readers. Teens will enjoy the fast pace. Another solid offering from Orca Book Publishers.

I am a girl in her early 20s that likes cars. I won't label myself a gearhead, but I know how to change my own oil and such. I found this book a bit disappointing. It was extremely predictable and I did not like that aspect in the least. On a good note, the characters were well developed and personable for such a short story. On a personal note, I understand it's short for a reason, but I would have loved to read a longer version of it. One that would have a few plot turns that would be unexpected.
