Author

Nationally known speaker and author/compiler of the best-selling book, America's God and Country Encyclopedia of Quotations; and well as the computer CD ROM reference American Quotations; a book entitled Saint Patrick; a book entitled There Really is a Santa Claus-The History of Saint Nicholas & Christmas Holiday Traditions; and numerous articles and columns

This book is wonderful. I keep it beside my bed and read parts of it very often. The quotes are good to learn how people really felt about things that are hidden from us now in this new liberal world of evil we live in.

Nicely done book which shows just how important GOD was used in our Country before we took GOD out of everything. And people wonder why we are so messed up. WE THE PEOPLE better get back to what is important.

Great book. Very informative and enlightening. A must read for those who have been brainwashed by liberal teachers into thinking Christianity had no part in the history of America. This book is GREAT reference material.

Very interesting book. It is all direct quotes, so really proves the point that God was very much on the minds and hearts of those who founded and had influence on America. Bought it for my history teacher son and then got a copy for myself.

Very interesting and informative. It is a resource every American History instructor should have in their library. It should also be mandatory reading for EVERY person who runs for political office anywhere in the USA.

What a fantastic view of history from those who lived it. This is a totally different angle than the angle you get in school and society.

Excellent addition to our library. Contains a wealth of really good info.

A reference book for patriots, history lovers, and wisdom seekers. What a great compilation!
