Sometimes You Win--Sometimes You Learn For Teens: How To Turn A Loss Into A Win

Synopsis

#1 New York Times bestselling author John C. Maxwell brings his common sense self-help lessons to teens! Any setback--a championship loss, a bad grade, a botched audition--can be seen as a step forward when teens possess the right tools to turn that loss into a gain of knowledge. Drawing on nearly fifty years of leadership experience, Dr. Maxwell provides a roadmap for becoming a true learner, someone who wins in the face of problems, failures, and losses. The teachings from *Sometimes You Win, Sometimes You Learn* have been edited and adapted just for teens. This Young Readers edition features all-new stories of real life figures that overcame adversity early in their lives, including entrepreneur Steve Jobs, Olympic Gold Medalists Gabby Douglas and Mikaela Shiffrin, and Nobel Peace Prize nominee Malala Yousafzai.

The content of this book is definitely 5 stars, however, the audio by an award winning reader is dreadful. As an adult and because I put \$ down on the audio version I have forced myself to listen past the painful reading voice to get at the content. Getting my teenagers to do the same?--not

without serious bribery. With all do respect to reader Chris Sorenson, this was simply not a good fit. Please remake the audio version as it is an awesome book for teenagers who don't like to read but will listen.

My daughter needed this book for school. She read this over the summer and told me many things about the book that impressed her. After hearing her opinion of the book, I was very appreciative to this author for producing such a positive, confidence building piece of literature for teens. Thanks, John C. Maxwell!

Great book for teenage little bro

Admittedly, I'm a Maxwell fan, but it was great to have my teen read this as I read the adult version. I love the "journal it" concept within each chapter and wish those would show up in some of his other works. Very well outlined and the perfect lesson for many high schoolers as they face rejection for the first time through sports, arts, socially, or even college selections.

A wealth of information from a man who has dedicated his life to learning and has the unique gift of imparting what he has learned to his readers

John Maxwell has an amazing way of helping us all get better. Learning from our failures and not letting them define us is a key lesson in life. Thank you John Maxwell.

Great book. My kids are learning valuable life lessons. The stories John tells stand out a lot to them and captures their interest.

I liked the original so much for myself, I bought this version for my 15-year old daughter. Her first "real" book. Now if I could only get her to read it.
