Look. I'm no stranger to Led Zeppelin Complete books. This is my third. If I could find a copy of the first one that I had which was released circa. 1980 or earlier, that is the one that I'd recommend because the tablature was closely supervised by Jimmy Page himself and covered a lot of the songs that I now want to learn very well. Having said that - this book is OK. I have high expectations as I have worn out two good ones already. and, although it could be better, its ok and does show some of the lead breaks to a better degree than my previous completes as well as showing some stuff off of Presence and Physical Graffiti which the others didn't cover at all. Only three stars because I wanted to cover the Rain Song and that is not adequately covered. I already play Stairway to Heaven, but you will probably be disappointed if you want to learn that - except that the lead break for Stairway is there.

Not complete at all. Only some of the songs are transcribed. Do not puchase this book. Most of it is in melody and chord name only. If you want a complete led zeppelin songbook set get the Alfred platinum set. I bought this and sold it immediately. Huge waste of money.

This is poorly written, may as well have written it in crayon. There is little tablature if any for a majority of the tunes. The whole purpose to order a tablature book is to easily play and learn the songs. This book is literally going straight into the trash can.

This book has vocal arrangements, but is not tabbed for the most part. Looks like a guitar 'fake' book. Selected songs have tabbed riffs and solos in the back, but not grouped with their correspinding songs. Was delivered 2 days early (I live in the Seattle area and bought from a Seattle area vendor). Arrived in excellent shape for being a used book. I will be using this book to get the idea of how the songs go, but will not be useful to me for the most part.

Not only is Led Zeppelin my favorite group, gone by, but this was really the only place that I could find the lyrics to all of their songs. I used to play the piano, which I choose not to anymore, but I really bought this songbook for the lyrics, not the notes. My rating is (*****), out of a possible 5 (*)'s.

This Zep songbook is nice. The color and type impression are both made in good quality. This also applies to the paper. The think I didn't like is the plastic comb. This made the book less expensive, but is necessary take all precautions to keep the book intact. Otherwise, it's ok.

This is one of the best books I have bought. the tab is well written and tht solos are accurate. I would reccomend this book to any Zep fan. Its a great idea to have it sprial bound as it lays flat when you open it. Well done! Great job. This will be giving me years of pleasure.

As a long time fan of Led Zeppelin this songbook is amazing. Great insight and learning tool for their music.
