I dated a great guy for over a year and suddenly he dropped off the face of the earth. Granted, it was a long distance relationship but we traveled a lot together and to me it was perfect. I had my own time yet always had something to look forward to by making the next plan to see each other. I made myself so available and able to go at any time, but by doing so put my own interests on hold and became less interesting and no longer a challenge. My heart was broken and I couldn't understand what had happened so of course I questioned and tried to reason that we were so good together. We didn't fight, we had lots of fun, did interesting things together, and sex was great. On and on and on.... I really saw myself in this book and it has helped me see that although I am a very

independent and capable woman that I self sabotaged my relationship by giving up part of myself. This is a must read for woman who give too much!

This is my first review... Ever! I have read literally dozens of relationship books that didn't really help. Why? They were all written by women! I have now read seven of Gregg's books and am putting them to use! Wow, what a difference even small changes have made in my relationship. Looking back at all the "girly" mistakes I have made was an eye opener for me. Seeing a relationship from a man's perspective has made all the difference in the world. Thank you Gregg, my life and relationship is changing for the better. These books get right to the point of what needs to be done and most importantly, it WORKS.

Didn't go deep. Was unimpressed with the book and didn't have a lot of takeaways. Wouldn't suggest, I was looking for something tangible and something that wasn't so shallow. It skimmed the surface and seemed like more of a book where the author could brag about his accomplishments.

Hello My name is Shannon and i have purchased 3 of Gregg Michaelsen Books.. (To Date a Man, You Must Understand a Man, How to Get Your Ex Back Fast! and Manimals: Understanding Different Types of Men and How to Date Them!) All which are AWESOME!!! After reading these books, i have learned alot about myself, as well as My Boyfriend... I recently wrote Gregg via email and he responded back within 24hrs!! This man is AWESOME Ladies!!! He is THE REAL DEAL!!! He Truly cares about his readers and is eager to help in getting your Relationship back on track! Don't Hesitate to purchase any of his Books, services or products! It is well Worth It!

I have read and subscribed to numerous dating programs that are overpriced and don't cut to the chase. They never worked for me only promised lies. But is simple and easy to understand it gets to the point! it's not asking you to use cheesy pick up lines! I was already bitter at age 20 since every single relationship I've had with a man all ways led to heart break because I was clueless!! This book has chnaged my life I do the choosing in my love life for I am in control now. This book teaches you things you wish you would have known and its really big eye opener! Will purchase more of his books! Thanks Gregg for making th we only dating advice books that Do WORK!

What a little gem of a book....written in an easy to understand style that states what you need to know without a lot of fluff. It gives good insight to how men and women may interpret things

differently, and offers steps on how to understand these differences and communicate more effectively, notably while in the dating game. The author also pushes one to think about themselves as well, as all work starts with one's self. Of course, this is not a treatise on relationships so think of it as a concise guide. The author doesn't want you to lose your emotivity or play games like some of these dating guides suggest...he wants to help you find more successful ways to communicate with the men in your life and have more successful dates and relationships overall. For the price of your morning latte, isn't it worth a read?

I read this book in 3 days and rather quickly started applying it to my relationship. After 24 hours of manmode it was already working. I highly suggest having your girlfriends read it too. That way you always have someone to consult and get advice from. I'm super excited to start To Date a Man You must understand yourself.

Excellent points for singles to navigate the dating world. A must for clueless single women. Buy it now, waste no time.
