Cosmic Trigger I: Final Secret Of The Illuminati (Volume 1)

Synopsis

The great modern classic of a brilliant rebel's personal exploration into the nature of consciousness
Featuring a New Introduction by John Higgs "Cosmic Trigger deals with a process of deliberately induced brain change. This process is called "initiation" or "vision quest" in many traditional societies and can loosely be considered some dangerous variety of self-psychotherapy in modern terminology. I do not recommend it for everybody . . . briefly, the main thing I learned in my experiments is that "reality" is always plural and mutable." - Robert Anton Wilson from the Preface
The Robert Anton Wilson Trust Authorized Hilaritas Press Edition

Book Information

Series: Cosmic Trigger

Paperback: 324 pages

Publisher: Hilaritas Press, LLC. (February 23, 2016)

Best Sellers Rank: #109,043 in Books (See Top 100 in Books) #160 in Books > Religion & Spirituality > Occult & Paranormal > Ancient & Controversial Knowledge

Customer Reviews

Wilson managed to reverse every mental polarity in me, as if I had been pulled through infinity. I was astonished and delighted.-- Philip K. Dick, author of Blade Runner "Erudite, witty and genuinely scary " -- Publishers Weekly "Robert Anton Wilson is one of the leading thinkers of the modern age." --Barbara Marx Hubbard, Committee for the Future "Dazzling the most thrilling tilt-a-whirls and daring loop-o-planes on the midway of higher consciousness." -- Tom Robbins "What great physicist hides behind the mask of Wilson?" -- New Scientist "The man's either a genius or Jesus." -- Sounds (London) "We've needed this for a long time " -- Henry Miller, author of Tropic of Cancer -- Author Reviews --This text refers to an out of print or unavailable edition of this title.

"I don't see how to take death seriously. I look forward without dogmatic optimism, but without dread. I love you all and I deeply implore you to keep the lasagna flying." --This text refers to an

out of print or unavailable edition of this title.

"Cosmic Trigger" is worth reading both for its historical value and its relevance today. Many of the important figures of the 60's and 70's, like Tim Leary, J Edgar Hoover and Robert A Wilson, are dead and gone, but the problems they represented are still with us. Permit me to quote one paragraph:"Paul Watzlavik, among others, has performed classic experiments in which totally sane people will begin to behave with all the irrationality of hospitalized paranoids or schizophrenics - just because they have been lied to in a calculated and systematic way. This sort of 'disinformation' matrix is so typical of many aspects of our society (e.g. advertizing and organized religion, as well as government) that some psychiatrists, such as R.D. Laing, claim it is the principal cause of psychotic breakdowns. When the politics of lying becomes normal, paranoia and alienation become the 'normality' of the day. The government, as the principal liar of the 1960's, was, of course, more deluded than anyone else, since its reality-map had become a classic disinformation system. The establishment began looking around for the villains to blame for the escalating social disintegration. Tim Leary got elected, by unanimous acclaim, Villain #1."Nominations are now open for Villain #1 of this decade. Osama seems to be leading.

The first half is really interesting and entertaining. Second half is less narrative.

Excellent and thought provoking investigation into realms not often discussed. The amazing thing is even though it was written a generation ago it is still relevant and fresh

What more can I say? Read the book and you will understand...everything. Well, maybe NOT everything, but it is a real eye opener!

This book is another step along the path. If you're reading this, buy the book and continue your journey. Humanity needs you more than you know. Peace, love, and eternal evolution to all.

This book changed the way I see the world and how I think about the universe.

Robert Anton Wilson's autobiographical work gives us an amazing insight into what thinking outside the box really means.

Wonderful boo! Gift for a friend.
