Customer Reviews

Besides being gorgeous, these are very fun cards to use. This deck stands out for its simplicity and elegance. Its beauty and unusual effectiveness are immediate, and combine to create intriguing and very enjoyable readings. --Illumination Tarot forum
These cards are just amazing... accurate and to the point of the matter. A must have. --Aeclectic Tarot forum

Christine Filipak is a graphic designer by trade and spends most of her time doing the layout and designs for all of the Monolith Graphics products. For 8 years she worked as art director for Dark Realms Magazine. A regular feature in each issue of the magazine showcased artwork by Christine in conjunction with a fortune-telling article by "Madame Endora," the popularity of which prompted the design of this deck of fortune-telling cards.

I really love these. I resonated with them almost immediately and I can't keep my paws off them!The

cards are decent quality, and a little bigger than the standard US Games brand Tarot cards. I don't know why everyone is complaining about how flimsy they are. They're the same quality as Lo Scarebo cards. Not super stiff, but not super weak either. They do wear and tear a little easier than some other decks. The box came to me with some wear and tear already... just take care of the cards and they will be fine. These are good for beginner and experienced reader alike :)

I'm an avid practitioner of tarot and oracle, and these cards are definitely one of my favorites! Perfect for beginners and experts alike, they are very blunt with things and they WILL tell you what you need to hear (not always what you want).

this is an interesting deck of cards. images on the cards come from various cultures, beliefs, legends, folklore. which is what i think makes it different from typical or standard fortune telling cards. pictures are colored nicely, none of which are overly "busy", they are simplistic images. each has a title and brief meaning on each. card size is about the size of tarot, although they feel a little larger to me. quality of cards is o.k. but they are not coated really, not like playing cards are. booklet that comes with it gives brief meanings for each card and has several layouts for you to try. overall i like this set and it would be good for anyone who doesnt want tarot or who wants something different to add to their collection of cards.

This deck has an energy of it's own. The cards are awe inspiring and the little book that comes with it is fully explanatory. I highly recommend this deck for anyone interested in straight forward oracle decks.

I purchased Madame Endora's cards and I love them. I love the artwork featured on the cards. I have two other decks, the golden tarot and mystical tarot. Madame Endora's fortune cards are my favorite. I had previously read some reviews on this item about the quality of the cards being "flimsy or not durable." I differ with those statements. The cards are firm, as tarot cards should be. I also liked how the cards feature a quote on the bottom. It's a summary of what the card means. This deck is a great way for beginners to learn to give simple card readings. It is not the same as regular tarot cards, it's more of an intuitive deck. I was very satisfied with the quality of this product, and I recommend it for anyone looking to dabble into the new age spirituality and/or intuitive readings. Tarot cards are very expensive if you purchase them from a new age store. These are priced at an extremely affordable price. I will purchase from this seller again. Fast, honest and reliable.

While NOT an actual Tarot deck (it's more like an Oracle deck although more extensive), it is surprisingly easy and FUN to use. Very good, not excellent artwork, each card is labeled a bit as to its meaning.

Oracle (or Tarot) decks would resonate with each reader differently. For example... a beautiful art work doesn't necessarily connect us well to a deck. For me, this deck works perfectly. A perfect match. It's not always easy to find such decks. I like a key word with a simple description and focused image in each card. Card stock is somewhat flimsy, but I colored the edges with black ink. It helps protect cards a bit more. Overall, I love working with this deck.

With all of the rave reviews surrounding this deck, I am surprised and disappointed with the flimsy, poor quality of the card stock. It is without doubt the worst card stock I have ever seen, even worse than the LoTR tarot deck. The cards are so thin that I doubt the deck can stand up to regular shuffling...a standard deck of playing cards is more sturdy than this. The art is very lovely and the booklet is nice..a fine divination system *ruined* by cheap publishing..I'm so let down.
