Customer Reviews

Excellent review grammar with tons of practice sentences that help crystalize one's grasp of the rules and many exceptions in French. It doesn't get lost in the weeds of trivial exceptions or windy explanations.

In my opinion, this is THE best French grammar ever written. The explanations are very comprehensive. I've taken AP French and IB French, & by practicing with this book French grammar is a piece of cake for me most of the time. However, not recommended for beginners in French since the entire book is written in French.

this is a great textbook and was very helpful. I have kept it and still refer to it when I am confused about parts of speech

Great book, very helpful!

I liked the ratio of explanation to practice.

Extremely helpful

This hits the trouble spots for native English speakers. It's a great review of grammar and construction. A few examples make no sense, but these are quibbles.

This is a perfect fit for my son who is taking IB French at High School. He will use this for his junior and senior years.
