## Customer Reviews

All the pages were very helpful for homework completion and for an introduction to the Spanish language. My daughter's school requires this book and, rather than have her carry it back and forth, I bought this one for an extra copy at home. It is very helpful when completing the reading selections and homework questions that are required for her class. It could be used for either a higher level middle school student, a high schooler, or an adult who wants an introduction to the Spanish language.

I used this book back in high school in 2002. I learned a lot from it (and my teacher was great too). I got out of practice and am buying it to get back in.

I bought this book because it was the same one I used in my high school Spanish class and I enjoyed using it then. I recommend supplementing this with some Spanish lessons on tape so that you can hear the proper pronunciation.

good

Good price, got here on time and in good condition. It's for school so I don't know how excited you can get.

I remember this Spanish textbook from grade school. I learned the majority of my vocabulary from it. It will be great for a refresher course.

Good beginner level book for junior high student, 60+ grandparents, or anyone wanting to review or increase their Spanish language skills

The first book I purchased from Books for Benefit arrived with a few interesting "comments" and a fun little anatomical drawing obviously penned by kids. In my original review I wished it had been checked more thoroughly before I received it although I rated the seller high for all other service. I was shocked to receive in the mail today another (perfect) copy of this book and to learn the seller not only read my review but acted immediately to fix this. Even more impressive? I never asked for a replacement copy or a refund. The price of the book was right to begin with so I didn't see the need to complain about it. I will be sure to bookmark this seller and pass it along to others. Very very impressed. Thanks Books for Benefit!!
