Discovering: Accessible US Travel Guide For Wheelchair Users

Synopsis

Wheel:Life publications center on sharing resources and support for people who use wheelchairs. In this book, youâ€™ll discover a state-by-state directory of accessible travel destinations across the United States. These accessible travel suggestions are part of the Get Out & Enjoy Life [GOEL] program that is a joint educational initiative between Wheel:Life, a global community of wheelchair users, and SPORTS & SPOKES magazine, published by the Paralyzed Veterans of America. More than 70,000 wheelchair users from 108 countries took part in Wheel:Life resources in 2014. For less than two dollars, youâ€™ll find that each chapter of this book provides easily-accessible destinations that are fun and engaging for friends who use wheelchairs. Discovering is an easy, encouraging read that will help you explore all kinds of travel destinations and family fun spots, whether you are new to using a wheelchair or a seasoned pro. Please note that not every state in the US is featured in this travel guide, just the ones that we have included in our GOEL program to date. Thank You

There is an entry for every state, all in alphabetical order which necessitates plowing through many states info if you are from Wyoming or Wisconsin. This can be a long tedious haul in a Kindle. The book is well written by an experienced travel writer. The places she writes about are well done with contact info for every place presented. This book is a good outline for a more comprehensive work.

If you are looking for detailed travel info this may be disappointing by the limited number of places mentioned in each state. The scope of the book is huge and the contact info for the entry's presented is detailed while the actual number of places and descriptions are very limited. For its price it is a good value just not happy with the limited number of entries per state. I would like something with more entries and with greater detail ie places to stay and eat as well as the attractions. .
