## Customer Reviews

Romance, clean, violence is boxing and mild fighting While part of a serie, this is a stand alone novella that can be read on it's own. This was a perfect read! Lots of tension, underlying stories that eventually come out as two hearts learn to trust. The drama in the fire station was great... I just wanted to hear how the fight between the brothers turned out! I am assuming that will be told in another book in this series somehow (at least I hope so!). Anyway, loved the two honest, hurting hearts that had family and work issues who learned to open up and trust each other. They were great characters, definitely had great chemistry, and beautiful fall. Loved how they each found their home with each other.

I have enjoyed all of these books centered around Park City! I normally won't buy novella short stories~ I want more of the story and think novellas end too quickly! My biggest complaint is to knock off all of the advertisements for coming books! I think the average reader is intelligent enough to seek out the author for additional books! Give me more story~ less commercials! Books are always 75% story and 25% commercials!!

It was an interesting story and so real. Damon was an ex firefighter from Boston but moved back home after the accident. He had two other brothers. Sam moved from Denver to pay student loans from becoming a lawyer. Sam worked for his brother and they met when she decided to jump off a cliff. They started to see each other. He explained what happened to him in Boston and she helped

him realize that it wasn't his fault. When her sister Overdose's she went home to help but he followed her to help her

I received this e-book free from and I am voluntarily writing an honest review. Sam is a attorney fresh out of law school and takes a job out of town from her sisters so she could get bills paid including her student loans. She feels guilty because her younger sister has problems and is unstable, but this was the best job offer she had. Damon is back in town after a ten year absence when he walked away from family and went to Boston and became a firefighter. He has a lot of skeletons and guilt. I like the family dynamics because no family is perfect we are all dysfunctional but all the alpha males crying at the drop of a hat not for me There were also gaps in the story that left me hanging.

I loved the characters and especially the relationships between the siblings of both the brothers and sisters. This was a great clean romance. I also appreciated the accuracy of the writer in writing about the fire service.

This is a powerful story about loss, love and family. It is about coming home, family healing and finding love when you aren't looking for it. This book was so much deeper than it appears to be. You will want to read the entire series. These are very talented writers.

I always love Taylor Hart's books. She writes well and the editing is good. Her storylines are fun and all her books are clean. The characters are delightful. I'll be reading this book again in a few months.

Clean romance. Likeable characters. Good humor. going to read the next book in the series. It was set in Park City Utah. Damon has come back home after trouble in Boston. Damon is a firefighter. He is also hot.
