Customer Reviews

This one star is a review of the "CreateSpace Independent Publishing Platform" version of this book. The content I found very interesting, I read in on kindle, but it is very dry matter of fact information about real pirates. I thought it might be nice to have a book of it to see the illustrations and have the shelf to look at every once and while. But what I got isn't really a book. It's a large bigger than a magazine print out. This quality won't even bother me so much if they would just make it a reasonable book size, I could put on my shelf, but it's a huge ugly thing that immediately looks like something that should be recycled.

I hung in there. This book is more like a series of happenings. Difficult to find any tale like quality.

Covers all the major pirates, where they came from, what they did, and how they ended. Not much glamour in piracy, more like petty thieves stealing fish in Newfoundland and petty cash from merchant ships. Interesting trial information. Book is dated but as a freebie you can't miss.
