The Witness Of Preaching, Second Edition

Synopsis

This thorough and detailed revision of *The Witness of Preaching* is even clearer and more helpful than the first edition. Long has updated the language, expanded the key chapter on biblical exegesis, and included more examples of sermon forms, illustrations, and conclusions. He continues to critically engage the best thinkers in the field of homiletics, bringing into the conversation both important new voices and the latest works of those who appeared in the first edition. In addition, he addresses some of the new forces at work, such as the use of video clips and PowerPoint presentations in sermons.

"Tom Long's wisdom about the practice of preaching is matched only by his care for the person of the preacher. In this new edition of his classic text, he helps those engaged in the ministry of proclamation to think more deeply about what we do and why we are doing it. He also reminds us that we are not as alone as we sometimes feel, which makes this book an essential resource for all who bear public witness to the gospel." --Barbara Brown Taylor, author of *Seeds of Heaven* "Like the first edition of *The Witness of Preaching*, this new edition offers excellence in scholarship that never gets lost in theory. Tom Long puts flesh and blood on his wise homiletical guidance so that readers not only come to new understandings of the preaching craft, but can see and hear how to put this guidance into practice. Reading this book feels like a conversation with a wise mentor, a conversation always grounded in the reality of living congregations. Seasoned preachers, as well as students, will be energized by this lively conversation. If you can choose only one book as a partner in your own preaching journey, this is the one." --Barbara K. Lundblad, Joe R. Engle Associate

Professor of Preaching, Union Theological Seminary

Thomas G. Long is the Bandy Professor of Preaching at Candler School of Theology, Emory University, in Atlanta, Georgia. He is one of the most popular preachers in the United States today. He is the author of several books, including *The Senses of Preaching* (WJK), *Preaching and the Literary Forms of the Bible*, and *Whispering the Lyrics: Sermons for Lent and Easter*.

150 pages in and I considerate an excellent read. Does a good job of clearly presenting a wide array of views from various homileticians, presenting the strengths and weaknesses of each view/methodology and laying out a systematic method for engaging in exegesis that honors Scripture and yet is flexible. I look forward to utilizing its methodology for future sermon creation.

I consider this one of the best books on preaching. It started great and I enjoyed the sensitivity about the life of a preacher. I appreciated the steps to do good exegetical work and how to translate the work into a sermon. I also liked the recommendations/suggestions on techniques. What I sometimes found cumbersome was the detailed presentation of an idea that sounded like the author was recommending it only to find that he was not: I suppose that makes great academics but can be frustrating to a reader who wants to know author is recommending. So, why did I give it a 5. Because it was still a great book and what I found cumbersome does not minimize its strengths.

I found this book helpful for my preaching. I've read better books for the process of sermon development in terms of specifics. However, this book seems to aim to get you to think about the desired outcome of the sermon. I recommend it.
