#1 Kindle Store Bestseller in Statistics (Throughout 2014) *****Are you looking for tips, strategies, secrets and insight into this supposed game of chance? Then you've come to the right place. Because I'm here to show you what it takes to win the lottery. Hi, I'm Richard - a well-seasoned professional lottery player with years of experience and hundreds of thousands in lottery earnings to back that up. Yes, that's who I am now, but I wasn't always like that. I started out right where you are - fascinated by the idea of winning the lottery, wistfully listing all the ways I could invest my millions but with absolutely no idea how to push my chances ahead of anybody else's. All those coins I was handing over to buy my tickets? I might just as well have been dropping them down the drain. No book or resource I could find was really able to help me and I couldn't work out why - until I built my own strategies through countless hours of studying the odds and investigating how and why people are able to win. That's why I've written this book - because I now know how to give myself the greatest possible chance of winning the lottery. I want to share that expertise with you, so that you can experience that incredible moment of clutching the winning ticket in your sweaty, trembling hand. Give me ONE DAY and I'll make you TEN times more likely to win the lottery. And I'll do it for less than the cost of a handful of lottery tickets. People will tell you that winning the lottery is just a case of having good luck - but that's not the case at all. With the secrets to picking numbers and playing the right games at your fingertips, you could be sitting pretty on a million-dollar prize in a matter of weeks! Winning the lottery is possible, even if you're a complete beginner. Even if you've never before played the lottery, I can show you how to increase your chances of winning with every single play. I'll show you how to decipher the odds, pick the right games with the best jackpots and understand what you've been missing all this time: what it takes to win. Within this guide, you'll find: Hot, cold or indifferent? How to tell which numbers you should be picking every time. Which numbers win more than others - and which lotteries give you the best chance of a big payout. How to expand your lottery options to go international and online. How to cooperate with others to increase your odds exponentially. If you don't buy this guide, you stand to lose THOUSANDS of \$\$\$ Even a single lottery ticket costs money, and you're going to end up buying thousands waiting for your win. If you don't know how to play the game properly, you stand to lose hundreds or even thousands of dollars over time. I want to help you win millions to outright buy your luxury dream house, not waste your mortgage money on pointless plays that never hit the right numbers. 100% ironclad money-back guarantee if you finish reading this book and you don't feel like you have a new and

Customer Reviews

Nothing new, reads like it was written off the cusp. Same tips you can get free elsewhere.

This book takes you from step one to the very end explaining how to better your odds at winning the lottery. The author is very straightforward, it is a game a chance but statistically you can better your odds. This is a must read if you are a regular lottery player. You must be willing to focus and put a little extra work into selecting your numbers. I'm looking forward to this challenge and my winnings.

This book did not include the information that I thought it would. I was already doing the common

sense things recommended.

Can't the download from even though I purchased this ebook.

Best book on techniques and strategies that I've read. Also all the different things to consider before you play and after you have won.

It's ok I guess has some good info but then again can't expect miracles to win. I'll just keep on trying...lol

Do not waste your money

I like it a lot.
