The Reluctant Welfare State: Engaging History To Advance Social Work Practice In Contemporary Society

Synopsis

Written in clear, lively prose this highly respected book analyzes the evolution of the American welfare state from colonial times to present. Social welfare policy connects to an empowerment perspective, showing how African Americans, Latinos, women, gays and lesbians, Asian Americans, Native Americans, the elderly, poor people, and other vulnerable populations, as well as social reformers, have achieved progressive reforms through policy advocacy illustrating how a deep understanding of the past can impact present and future actions.

Customer Reviews

Bruce S. Jansson (MA, University of Chicago and Harvard University; PhD, University of Chicago) is Professor in the Department of Social Work at the University of Southern California (USC). He joined the USC faculty in 1973 after working in Michigan as a community organizer and planner for tenant rights. His scholarly interests focus on advancing case advocacy and policy advocacy in social work, as well as examining the history and practice of social welfare policy. He also has served as the Moses Distinguished Research Professor at the City University of New York Graduate Center. Jansson is probably most well-known for the book *THE SIXTEEN TRILLION DOLLAR MISTAKE: HOW THE U.S. BUNGLED ITS NATIONAL PRIORITIES FROM THE NEW DEAL TO THE PRESENT* (2001). The author of several other titles, Jansson is currently working on two books. One discusses how social workers and other staff in the health and human services can link case and policy advocacy in different sectors including mental health, child welfare, corrections,

education, and civil rights. The other analyzes why the United States has not significantly reduced health disparities in the last five decades, and whether the Patient Protection and Affordable Care Act of 2010 will achieve this result.

At first I really enjoyed the book, it was assigned as a social work program textbook, then things went horribly awry. The authors seemed to change, and the tone of language changed and became full of slang and hate. Non-supported and incorrect facts began to be thrown about, whole paragraphs were repeated word for word about different presidents in the different chapters, and positive reforms and programs created by presidents they clearly hated were conveniently left out. Once you get past the chapter on Roosevelt and Social Security don't bother, Google will teach you more accurate information!

as expected.

Great book that fulfilled my class requirements and resourceful for my academic and career pursuits

This book is a thorough review of the nation's political and social history; however, the liberal bias is so strong that it distracts from the facts making it feel less academic and more like political propaganda.

very informative and useful! Had to get the book for class and will most definitely keep it! It really taught me a lot

informative and used as a textg book for a masters program at temple university very good and well written highly recomended

It was the exact book i needed. it came fairly quickly, it was still in the projected time frame and it was packaged good.

Got this for my Godson and he LOVED it!
