JoAnne Richmond is a graduate of Penn State University with over 20 years experience in the image consulting and fashion merchandising fields. Since 1996 she has been associated with Color

Me Beautiful as an independent fashion consultant. She lives in Fairfax, Virginia.

I have the original Color Me Beautiful but this book includes more information about the colors each season can wear. The colors are produced in more vividly and I found the information more interesting.

I feel like this book is a bit outdated though somewhat useful. There are so many new color categories to fall under now and they aren't covered in this book. You get a basic overview of the original 4 color palettes but there are now 16. I highly encourage going to get a color analysis by a professional as figuring it out yourself can be a little confusing at first.

This book is very practical for getting most out of clothing and makeup color choices that are flattering to your skin and hair color. I didn't buy into this "color me beautiful" stuff at first, but after reading the book and trying it, I'm a believer.

this book goes along with the other book, Color Me confidences. Telling you what colors to wear for your body type and what colors of fabric for what season.

This is an updated version of the older book. I found it still informative and useful. I am glad I bought it.

Pixelated pictures in digital version. Pretty short too, I read the whole thing in 2 sittings. I think the makeup section (how to apply) was to fill in space.

Updated version using updated colors. Very helpful to me.

Really liked the helpful info to help me find my season and tips for my season . Anyone who wants to look there best.
