Arrangements are set up in "singer/piano/guitar" layouts. While this allows plenty of flexibility for the musician, it also takes up a lot of room, forcing multiple page changes for most pieces. Although I have long experience in playing musical instruments, I dislike music written with more than 3 sharps or flats, so I was disappointed to see a significant number of tunes written with four flats or sharps. While these "odd" keys are frequently necessary to match a tune to a particular singer's voice, it isn't always necessary that the tune be published in that same key for the general music market. This, of course, may not matter to some other musicians. The Selection of tunes cover a good cross section of the hits of the 1960s though there are duplicates from other Hal Leonard collections. Physically, the book is reasonably well printed and the scores have good contrast (not all of us (still) have good eyesight). It uses a "lay flat" paperback binding (that allows the spine of the cover to move away from the glue-binding of the internal pages. This allows the book to lay flatter than a regular perfect binding (or saddle-stitch (stapled) binding). This extra cost choice is a much

appreciated choice of the publisher.

Good book with good songs.

excellent choices

Dissapoinjted with backing tracks. Just basic downstroke strum.

Great bundle of songs from the 1960s
