Beyond Bop Drumming: Book & CD (Manhattan Music Publications)

Synopsis

Beyond Bop Drumming is John Riley's exciting follow-up to the critically acclaimed Art of Bop Drumming. Based on the drumming advancements of the post-bop period of the 1960s, the book and audio topics include: broken time playing, ride-cymbal variations, up-tempo unison ideas, implied time metric modulation, solo ideas, solo analysis, complete transcriptions, and play-along tunes.

John Riley its the best!!!! Definitely a most have book.

I already had the last book by John Riley but this one is much better, every drummer should have and practice " Beyond Bop Drumming ", I am very happy and proud to get this book. This method is really made for the be-bop fans with many examples and songs you can practice, very interesting

and complete, excellent !!!

I am just about finished with Riley's other book, "The Art of Bop Drumming." I wasn't sure whether to move on into this book, or continue working on mastering the material in the first book. I decided to order "Beyond Bop Drumming" and I'm glad that I did. It addresses a number of things in more detail such as uptempo playing, and begins to get you into comping with your hi-hat foot.

It's a classic book for jazz drumming!

Mr. Riley knows so much about the history of our great art form, and this book gives a developing drummer the tools to take the next step.

I have spent a lot of money on DVDs and i have to say that even though i thought DVD lessons was the way to go, this book and its especially useful audio cd kick DVD lessons' butt! this contains things that take a lifetime to master. it is worth every single penny.

Excellent!!

ok
