Stack Silver, Buy Gold, For Beginners: How And Why To Invest In Physical Precious Metals And, Protect Your Wealth, When The, Money Bubble Pops (Silver, ... Silver, Gold Fever, Gold Wars, FED Book 1)

Synopsis

Stack Silver Buy Gold For Beginners Are You Looking For A Way To Protect Your Wealth Free From Government And Banks? For those interested in protecting themselves against inflation, hyperinflation or an economic collapse that makes today's currency worthless, stacking silver is the best option. Investing in gold and silver is an excellent way to get that protection. There are plenty of financial experts that are sounding the alarm about the current state of the economy. Those experts are telling people to start investing in silver and gold, rather than the volatile stock market. Stacking silver is one way regular people can save themselves the heartache of losing their hard earned savings in a stock market crash. There are some key points you need to know before you go out and start buying silver and gold pieces. This book will explain why you want to invest in silver and how to go about doing it. Stacking silver is a fun hobby that will quickly become a way of life. You will find yourself checking the change you get from the store and visiting new coin shops in search of silver. You will learn what coins to collect, where to buy the coins and bullion and how to test the silver and gold you do buy. Not all coins or silver pieces are created equal. There are a few old coins you will want to be on the lookout for. You will discover what those coins are in this comprehensive guide. Depending on where you live in the world, your access to silver coins and gold bullion will vary. You will discover all the available options and what you should be buying. Don't put off learning about silver and gold investing another day. Now is the time to start securing your future by stacking silver.

Here's a preview of what you'll learn with this fully illustrated book;

- Learn Why Silver And Gold Is Such A Great Investment For The Novice Investor
- Learn The Pros And Cons Of Investing In Silver Compared To Gold
- Learn How Decide Wheather To Invest In Coins, Rounds Or Bullion
- Learn What To Look Out For When Investing In Old American, Australian And British Silver Coins
- Learn Where To Find The Best Deals On Gold And Silver
- Learn How To Check The Purity Of Your Gold And Silver

Much, Much More

Readers say....."This book will walk you through the principles and concept of silver and gold investing. It discusses the importance and the huge benefits of investing in precious metals such as silver and gold. It provides excellent tips, including the pros and cons, tips in checking the purity of these precious metals and brilliant tips in finding the best deals".....

Thomas "Good, solid information to get a person started. He briefly describes WHY the reader might want to get into gold and silver, as well as how to begin regardless of the amount of money you have to start with. He is brief, yet right to the details the reader needs. There is no wasted "fluff" in this book".....

Customer" There's an ad we see pretty often on television for a local store that buys rare coins, as well as gold and silver. I have even passed by that store and thought "There's the store that that ad is for!" When I saw this book, it reminded me of

that shop and made me wonder if they were right about what they advertise. This book clearly tells me they are. It tells you how you can invest in silver, gold, and coins, and make money down the line. It also gives you a number of ideas of places to obtain them if you don't already have them sitting in a box in your closet, in your garage, or wherever. If you're looking to invest in any of those and you're not sure where to start, it is a good idea to take a look at this book".....Penny PGet Your Copy Now!

Customer Reviews

Good, solid information to get a person started. He briefly describes WHY the reader might want to get into gold and silver, as well as how to begin regardless of the amount of money you have to start with. He is brief, yet right to the details the reader needs. There is no wasted "fluff" in this book.

This is a fantastic book that opens the door on learning how to protect your money. I know I wonder about how long my paper money or money in my bank account will maintain its value. With all of the chaos in the world, this leaves me thinking that maybe I should have my money in something more

solid. That is where Jim's book is fantastic. It explores exactly what it means to invest in precious metals and how to go about buying and storing them. If you also feel unsafe with where you store your money today, you must read this book!

Short, to the point, easy to Get It, and spot on!

These days one can not be more careful in what and where you invest your fortune. As you have been working hard for it. Here is a good insight in the difference of currency vs money (as gold and silver) and how to invest in it properly. One can not go wrong by reading the book and making more informed decisions concerning investing.

Save your money and go out buy a silver dime somewhere. You'll learn more than this "book" will teach you.

Book? A 32 page manual would be more descriptive. SD

very good

Very basic book, not bad if you are a new stacker it does have some good information. Very short.
