# The Complete Works Of Mark Twain

## Synopsis

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant. --This text refers to an alternate Hardcover edition.

## Customer Reviews

I'm not sure why that one person had a problem finding the Jumping Frog story in a previous review. Everything is here, literally everything. All you need to do to find it all on your Kindle is hit Menu, then "Go to..." and then scroll down to the table of contents button. There's a ton here, so you need to page over to the right to find more stories, which is where "The Celebrated Jumping Frog of Calaveras County" appears. There's no reason anyone should have rated this a "one star." I'm flabbergasted at all the stories that appear here, and I had no idea Twain was as prolific as he was. Very impressed with this collection, and I recommend it to all!!

For the previous version (white cover, b&w picture of Mark Twain) (purchased and returned for 99 cents): I was so excited to get all of one of my favorite authors' works for under a buck. But there is

really no sense in buying this Kindle collection if there is no ACTIVE table of contents. YES, the table of contents is there, but you have to go and try to FIND IT, bookmark it, and then the short stories table of contents does not work. If that doesn't bother you, then by all means go get it. I am, however, going to look for a better Kindled version of all of Mark Twain's works, even if that means I have to pay a buck more. For the current version (blue cover, b&w photographic-looking picture of Mark Twain) (purchased and satisfied at \$2.99): PROS:- great table of content (TOC) (it finally works!): easy to navigate, etc.- some of the editorial mistakes have been corrected; for example, a previous commenter said that Huck Finn was missing from chapter 36 and on. I checked and as of August 28, 2012, all the chapters in Huck Finn are there.- fun pictures and photographs CONS:- MASSIVE BODY OF WORK = long download time. I'm talking over 20 minutes here. I would download it on your USB and then transfer over to your Kindle if I were you.- I'm sure there are typos, but in such a huge literary body of work, I won't be able to find them all too quickly. For an extra \$2, the TOC is fabulous and it LOOKS incredible (good type, etc.). The illustrations/photos are great to look at, and the biographies look actually somewhat interesting at a glance! If you're a fan of Mark Twain, or even just like some of his works, this is worth your money. P.S. Why get this instead of downloading stuff for free? Because I don't know about you, but I have over 500 books in my library. And it's just a lot easier to look at one book, go to the table of contents, and choose what I want to read. A little lazy on my part, perhaps, but I've got 3 bucks to spare.

Mark Twain's 2 volume autobiography was worth the wait. This is not a "and then I did this" chronological biography, but was written/dictated to whatever moved Twain each day. As such, the stories are rolling remembrances of snippets of the great writer's life. They read as if he were there conversing with the reader, with his side of the conversation swinging in and out of the past and present, first perhaps describing a (then) current affair, then launching into a relevant, or not, tale from the past. He reminds the reader on occasion that his biography allows him to say what he honestly thinks because he has already stipulated that it not be published until he and the people he discusses are surely gone from this earth. He assumes none of them will harbor hurt feelings at that point. Wish that all who are compelled to write autobiographies would practice the same discipline.

I just downloaded the book to my Kindle, and the Celebrated Jumping Frog story is there. It is a little hard to navigate to, but if you go to the contents of the short stories, click on the Celebrated Jumping Frog, and then hit previous page you will be at the title. All in all this is a great buy.

It's The Prince and the Pauper - That's ALL. The link links to the Kindle version only, which may actually be complete. When one 275 page volume arrives in the mail, you KNOW you have not received The Complete Works, unless it is on microfiche, and this isn't. No indication that this may be one of xx volumes.

Love the wit of MT. It's same lot to read still haven't gotten through a third of it, but like to switch to reading it after more dry materials. He has a great view of the world and his stories are like reading a great historian of the times....

Prior to reading this book, I had a limited knowledge of Twain. He is one of the best writers I have ever read. His wit and veiled sarcasm made me smile. He is a smart ass who everyone can like his non-fiction stories are just as good and for some better than his fiction. I loved everything I read. I felt his personality so strongly as time it was as if he was seated across the table from me. That is a rare quality. highly recommended.

Returned it for false advertising: I bought it to get a copy of 1601 not in some other Twain/Clemens books I have. Prince and the Pauper is the only book between the covers... Bill Logan
