Customer Reviews

Expeditioning and coaching at home and abroad have given Gordon the background needed for writing this book. Thirty years experience of sea kayaking and coaching, with forays into white water and surf coaching are shared with the reader. From his early days on the West Coast of Scotland in a home-built wood and canvas kayak to Greenland, New Zealand, Tasmania, Sri Lanka, Norway, Iceland, Canada, USA, as well as every home nation and all the outlying islands, he has always pushed the limit of his knowledge and skill. He also spent three months coaching on the rivers of Nepal. As well as owning and running Skyak Adventures on the Isle of Skye, Gordon trains and assesses to the highest level within the BCU and is currently involved with the development of the new awards scheme. He is a BCU Level 5 coach (sea and inland) and Scotland's only ACA Advanced open water instructor.

Clear, comprehensive, well written and presented. If you're going to buy one book on ocean

kayaking, buy this one. If you're going to buy several, make sure this is one of them.

Trying to read all I can on sea kayaking, I came upon this book. Simply excellent. Before this one, John Dowd's long-distance touring manual was my favorite. This book is more current, more concisely written and much better illustrated. I also felt that it has a bit broader coverage and more appropriately focused on paddlers who are already familiar with the basics and want to go beyond. A beginner with high aspirations will love this book. A beginner who has no intention to paddle off-shore or in rough waters will find this an overkill.

This is an awesome book and though I'm not even an intermediate sea kayaker yet, this book is immensely helpful. It is also a great companion to the 3 DVD set by Gordon Brown I have recently purchased.

Loaded with great technical info but not a dry read by any means. Although the book is aimed at intermediate and advanced paddlers, anyone who is comfortable edging their boat (light touring or sea kayak) will find a wealth of new tools within.

a must have, excellent reference for anyone doing or plan to do sea kayaking.

This book is a must for any Kayaker who want to learn the best of Kayaking the safe way and right way .

Great Book!

Gordon Brown is a master sea kayaker, with a lifetime's worth of experience and God-given talent to share. Anyone who thinks about taking their kayak out in open water would do themselves a HUGE favor by reading this book, over and over and over again. There are also companion videos available that are must-haves too.....
