Customer Reviews

Bought the National Park Coin Folder for grandchildren at same time I bought them the State Quarter Folder. I had been collecting the state quarters from the start. After visiting The Mint and the kids experienced and learned about the creation of the artwork on the state and national park quarters, I gave them each a quarter from all 50 states and as the quarters were distributed, we talked about what was on the coins and why. We had a fun few hours after which they learned a lot about each state. At that time I also had a few national park quarters but didn't realize it until we looked at them closely. When I gave them the books before school one morning, they immediately started putting their coins in the books. Since then they have been actively looking for the national parks coins they are missing. Great education fun. The folders seem like they will hold up for a long time.

This is a good choice for the casual coin collector but only has one slot per quarter issued, so there is no provision to inset one from each U. S. Mint of the same issue. Coins are heavy though to ship so most coins in circulation in your area will be from the same U. S. mint. There are though all kinds of levels of coin collecting and for someone only looking for a representative of each design this is a very well designed way to display the coins. The U. S. mint site is the best place to learn the basics of coin collecting with a bias only toward selling you more and more expensive options that might be cheaper at a local store for coin collectors that buys in bulk new issues plus purchasing from other customers.

I did not get this product from but I believe it's the same one (same cover and from Whitman). I don't usually do reviews but I really want to warn you about this one...pros:1. Tiny2. no P & D, just one slot (for professional collectors, this may be a con...)cons:1. Too hard to get the coins in!!2. The cover is just a thin plastic layer.3. There's a sticker on 2019 Taxes to cover typos or so!!! (is it just me? no one mentioned it before...)

This is exactly as it said it would be. I am starting a collection with my son, and he is always the one who puts the quarters in. They fit snugly, but it is not too tight to get them all the way in. I do warn him to put them in straight because it doesn't seem as if we could get them out easily. At least not without damaging the cardboard.

I got this for my husband and he really loves it cause it looks so nice. He had been keeping his quarters in a tin canister and this is a much better way to keep his quarters and easy to see what he still has and still needs.

Fun. Gets one looking for the coins need to fill the book. Kids like the info about the parks that the coins give. Asking to travel to some of the parks.

Great quality none of the words are cut off. Onc you put the coins in it's hard to get them out so make sure you put them in the way you want.

The tri-fold format is good. However, the third panel was torn nearly halfway off. I taped it on but would have preferred to not have to do so.
