Millionaire Mindset: Habits And Simple Ideas For Success You Can Start Now

Synopsis

Discover the ideas that will turn you into a millionaire and give you financial freedom. Making your dream a reality This book is written for those who understand that they can achieve success through a positive mental attitude but are ready to go beyond visualization and are looking for a practical guide to making the transition from visualization to actualization of becoming successful. The information in this book can be applied to any field of endeavor to achieve success. At almost twice the length of competing books in its genre, not only will Millionaire Mindset guide you through the most important traits and habits of millionaires, but it contains a bonus section with practical ideas that is the length of most books in the genre, providing exceptional content and unsurpassed value for your money. This book will help you master the game of money. The problem with most success books Most success books focus only on positive thinking. Listeners are often left charged and rejuvenated, but after years of "thinking to grow rich", sometimes very little progress is made in life. The majority of other books in this genre contain the same recycled content (such as the law of attraction). This book is different. This book is a more pragmatic, in-depth look at the millionaire mind and strategies. This book will look at some of the most important traits of millionaires and their habits, but it also looks at some of their most powerful wealth-building strategies. This book goes beyond books like Money: Master the Game and provides a more powerful, in-depth look into how wealth is generated.

Thanks a lot, Dr. Smith!!Millionaire MindsetThe book is great and I have been reading it carefully to grasp the best of it. By reading this material I am confirming most of the things I have learned through its pages. Through the years I have become my own life's observer and I have understood many things that I did not understand before. The purpose statement presentation helps us to set our goals in a way most people do not do. Life has many secrets and the Mind creates our reality through imagination, but many do not pay attention to it. This book is like a good friend, ready to give instructions out parents do not give us, because they do not know. I'd would like to thank the author, Dr. Darnell Smith, for his kindness, since thanks to him I got a free Kindle copy of the book. I would like to recommend it right away for the enjoyment of many readers eager to change their life conditions.Great book. I love it.

As a solopreneur, I know I have those bouts of flagging faith in what all those "rah rah" success coaches are talking about. Some days you're "on" and others, well...it's like your "mo-jo" has left the building.all of a sudden.Readers can find their way to getting revitalized again throughout Darnell's helpful guide to getting that mojo back again; within the different chapters some of the most important highlights include:How to approach money management, so you learn to strike a balance between saving for a rainy day, and becoming another spendthrift.How to counteract that doubt that creeps into your mind and keeps you from living your best potential. Inertia can be a powerful thing and it subconsciously creates "stalling tactics" e.g., procrastination, fear, staying in the comfort zone.I especially liked the story about the Olympic athlete's rise above the scary ordeal of getting burned/severely injured by a stove fire and believing he could walk again, and then some!Darnell's discussion on Internet marketing had a thing or two to tell me, I don't consider myself a "pro" but I see areas for improvement I could look at for myself in this department.The chapter regarding stocks/real estate did not concern me, but I am sure there is an audience that will benefit from reading this part.Disclamer: I received this book for free/discount in exchange for my verified and honest opinion.

'The Millionaire Mindset: Habits and Simple Ideas for Success You Can Start' is a concise and well-written guide for getting familiar with a mindset of fearlessness, success, and wealth-building. The book has often reminded me of the writings of Wallace D. Wattles and William Walker Atkinson; I just got a felt-sense that the author is familiar with New Thought literature, and has been inspired by it. But on the positive side I would like to note that he did not exhibit the habit $\tilde{A}f\hat{A}\phi\tilde{A}$ $\hat{a} \neg \tilde{A}$ \hat{a} which I found disturbing $\tilde{A}f\hat{A}\phi\tilde{A}$ $\hat{a} \neg \tilde{A}$ \hat{a} of Wallace D. Wattles to say things like $\tilde{A}f\hat{A}c\tilde{A}$ $\hat{a} \neg \tilde{A}$ $\ddot{E}correction variable on the constraints of the c$ unnecessary and often unwelcome admonition. I personally was not inspired by Wattles $\tilde{A} f \hat{A} \phi \tilde{A} \hat{a} \neg \tilde{A} \hat{a}_{,\phi} \phi$ books, rather intimidated by his very outspokenly decisive and $\tilde{A}f\hat{A}\phi\tilde{A}$ â $\neg \tilde{A}$ \ddot{E} œultimate $\tilde{A}f\hat{A}\phi\tilde{A}$ â $\neg \tilde{A}$ â, ϕ style. The present book doesn $\tilde{A}f\hat{A}\phi\tilde{A}$ â $\neg \tilde{A}$ â, ϕ t fall in this trap; it $\hat{A}f\hat{A}\phi\hat{A}$ $\hat{a} - \hat{A}\hat{a}_{\mu}\phi$ s written with respect of the reader, and in a much more humble tone. It also guotes many other books. I found the book very orderly in its conception. Part One presents the core of what the author calls $\tilde{A}f\hat{A}\phi\tilde{A}$ $\hat{a} \neg \tilde{A}$ \ddot{E} ∞ Millionaire Thinking $\tilde{A}f\hat{A}\phi\tilde{A}$ $\hat{a} \neg \tilde{A}$ $\hat{a}_{,,\phi}\phi$ and mission-critical values such as time management, decisive focus, persistence, resilience, while Part Two $\tilde{A}f\hat{A}\phi\tilde{A}$ $\hat{a} - \tilde{A}$ \ddot{E} ϕ Millionaire Purpose $\tilde{A}f\hat{A}\phi\tilde{A}$ $\hat{a} - \tilde{A}$ $\hat{a}_{,,\phi}\phi$ deals with delayed gratification, and purpose. While I liked the entire book, I found Part Two especially captivating. What the author says here about $\tilde{A}f\hat{A}\phi\tilde{A}$ $\hat{a} \neg \tilde{A}$ Eccelerated gratification $\tilde{A}f\hat{A}\phi\tilde{A}$ $\hat{a} \neg \tilde{A}$ $\hat{a}_{,,\phi}$ is proven by evidence from child psychology, in that children who are early aware of the need of delayed gratification score much higher in the success ladder later on in life. The author guotes several research studies that prove his point. The third part if a very handy and pragmatic listing of various wealth building strategies, from affiliate marketing over real estate to options trading. As I myself was a real estate investor for many years until I experienced a fatal misinvestment with pool villas in Thailand. 2011-2014, I know that what the author points out here is of high practical value. Most of his advice given here, I have taken half-heartedly, such as looking for comparable properties to see if the appraised value of the property is really its market value. Having bought real estate that was over market value, I was destroying my chase to resell profitably from the very start. I have since then read all the books by Donald Trump, Robert Kiyosaki and Dolf DeRoos, which is how I learnt the know-how $\tilde{A}f\hat{A}c\hat{A}$ $\hat{a} \neg \tilde{A}$ \hat{a} •and judging from these sources, what the author writes in this sub-chapter really tells the truth and the rules of the game. This book has deserved praise. The author writes a fluent style, and his advice comes over as grounded, never high-pitched or taken out of the air. I will end this review with a short quote from the book that may give evidence for what I am saving here: $\tilde{A}f\hat{A}\phi\tilde{A}$ $\hat{a} - \tilde{A}$ A "The four skills of success (commitment/courage, planning/cleanliness, obedience, and work/industry) transcend culture, economic condition, and personal belief system. When these skills are mastered, success is sure in whatever activity you choose. But, while peace of mind is a form of success, success does not necessarily equate with peace of mind. Integrity, or personal honesty, is the deciding factor. Humility, the candid assessment of personal strengths and weaknesses, fosters integrity, and integrity is fostered through delayed gratification. Ãf¢Ã ⠬à •

As that famous TV game show asks: "Who Wants To Be A Millionaire?"Certainly everyone wants to

be a millionaire, except some peoplelike Microsoft founder Bill Gates, who is a Billionaire and inBill Gates case, to be a Millionaire after being a Billionairefor years would make him feel like being dirt poor and homeless!Dr. Darnell Smith makes the case that you could well be a new21 century millionaire too, by thinking like a currently sucessfulmillionaire. Dr. Smith makes a clear and concise argument that yourmind must change, before your wallet becomes over stuffed with cashwhen he states: "Ideas are very powerful because they make us visualizethe globe as what it could be rather than what it is currently"Well stated, and a great first step for those lucky few who take to heartthe question: "Who Wants To Be A Millionaire?"
