Beginning on the NBC Radio Network in 1930, Father Sheen broadcast "The Catholic Hour" all across the world. Later, after he was consecrated a bishop in 1951, Bishop Sheen was seen on TV each week. When it came to authoritative Church teachings, Catholics and non-Catholics listened to the Bishop because he was someone they could trust to "tell it like it is." Bishop Sheen was someone who not only had a rock-solid theological background, but he also had the ability to relate concepts with great insight and wit that appealed to everyone, from the theological scholar to the uneducated and the non-Catholic. Perhaps, that's why his words are still fresh and inspiring today, and continue to change the lives of thousands!

This is written by a Catholic bishop who used to have a TV program by the same name. Much has changed in our media today, and shows like that are probably only on certain premium channels. I find it very well written by a deep thinking and wise person, which Fulton Sheen was. Since both he and his era of faith programming are gone, this is a wonderful book for Christian people wanting to hear his perspectives on a variety of life topics.

When I was a junior in high school, I was a bellhop in a local hotel. Sunday afternoons were sometimes without a single 'front,' so I got to watch one of the only televisions in town. I watched

and listened to Bishop Sheen's "Life is Worth Living" on many of those afternoons. His thoughts and presentations were riveting to me. When I got my Kindle and discovered his book was available as an ebook, I ordered and read it. His teachings and presentations are just as riveting today when I am 75 years old as they were in my mid-teens. And that is not hyperventilating sentimentality. Sheen was a real teacher of timeless truths and attitudes then, and he is now. I will be reading it again.

I recently downloaded this for my Kindle and have found it to be an absolutely delightful read. I'm too young to remember Fr. Sheen's TV show (from which these are transcripts) but now certainly would love to see some reruns. Despite the age of these transcripts they are not at all dated. Also, for those who may be turned off because of Sheen's religion (He's a Catholic) please do not be. His shows were very popular to people of all faiths and after reading this I can see why. His topics aren't at all dogmatic and are very well reasoned and even entertaining. Also, given the state of things today and knowing that these were written many decades ago some of it is quite prophetic.

For anyone, Catholic or not, this book will shine light on simple issues and problems that everyman may struggle with. These are transcripts from Fulton J. Sheen's television show back in the 50s? Each 'topic' is merely a few pages and is laid out in simple manner and explained using logic to point out fallacies in thought. Love it. Ordered as a gift.

This book is amazing. Highly recommend this and anything Fulton Sheen.

I still find it amazing how Fulton Sheen's thoughts are still up to date in many areas. He can be verbose at times, but still gets his point across effectively. I would hope that the younger generation would read this, despite the flowery language of the time, and some dated topics regarding the US. However, the sociology, psychology, and spiritual topics, still ring true to the present times. There is a lot to learn here, to make your life run smoother. I am enjoying this and highly recommend it!

Since I am of that age that remembers seeing / listening to Bishop F.J.Sheen on the early TV. I have been reading a chapter at a time, then think about and some times rereading with a different thought in mind, and wondering if he just might be a Prophet of things to come. watching him those many years ago, I had always planned to read his books.... Now I have the time and still enough eye sight to be reading at short intervals and think about what I have read and although I have not finished the book

YET.... I know it is one important book that I have already recommended to others.

Fulton Sheen is wonderful.
