# Torn From You: Tear Asunder, Book 1

## Synopsis

A USA Today best seller. Warning: This book contains some very disturbing situations, graphic violence, strong language, and sexual content. For listeners over 18 years. Love is like an avalanche. It hits hard, fast, and without mercy. At least it did for me when Sculpt, the lead singer of the rock band Tear Asunder, knocked me off my feet - literally. Because he's also a fighter, illegally of course, and he taught me how to fight. He also taught me how to love, and I fell hard for him. I mean, the guy could do sweet when he wasn't doing bossy, and I like sweet. Then it all shattered. Kidnapped. Starved. Beaten. I was alone and fighting to survive. When I heard Sculpt's voice, I thought he was there to save me. I was wrong.

## Book Information

Audible Audio Edition

Best Sellers Rank: #11 in Books > Audible Audiobooks > Fiction & Literature > Erotica #500  
in Books > Literature & Fiction > Erotica #12292 in Books > Romance

## Customer Reviews

This was the first book that I have ever read that was this dark. I do believe I've found a new genre of books that I love. Sculpt is the lead singer of Tear Assunder and he's also an illegal fighter. Emily is sweet and innocent but was attack by a guy on her way out of work one night and she wants Sculpt to teach her how to defend herself so this never happens again. At first he refuses but then reluctantly agrees to it. After several months they fall in love. Sculpt is Emily's world. He's so sweet to her to be the big bad illegal fighter and lead singer of a band. He writes her a song and she goes to see him preform at her friend Matts bar. One trip alone to the bathroom is the beginning of what can only be described as a nightmare for Emily until she hears Sculpt's voice. He here, he's come to save her.....or has he really. I devoured this book. I loved every second of it and spent most of the book holding my breathe and trying to figure out what is going on. It's a story of one of the most

horrible things that you can imagine happening to any girl. A story of a boy lost to a world that could have destroyed him. A story of survival and a love so strong it can survive anything. Or can it?? Don't miss this book. Nashonda Rose has written an amazing book that's a must read in my eyes.

(Note Logan and Sculpt are one and the same) This book. Gah! Ugly cry alert! This book is incredibly dark and tense, and just when you think you know what is going on, something comes along to change everything. This book had so many twists and turns that I didn't know which way was up or down. It took me on a ride that I will never forget. Wow! Okay, so I had so many things highlighted in this book it's hard to know where to start. I guess I will start with a short little excerpt to get you in the mood (not that kind of mood pervert). When I saw him my heart stopped for a few seconds then started beating erratically. It was him, but nothing in his eyes was the man I knew. He was cold and expressionless as he stared down at me. Not a glimmer of sympathy in his eyes. I recognized nothing of the man I had fallen in love with. Hope died as the realization hit me. He was part of this. He did this to me. I vomited all the water before everything went black. Yeah, that part just about broke my heart. I was disgusted and broken-hearted. Betrayed. I felt like I had died a little inside. Who was this man? I felt like an animal being shipped for transport. A sharp, gruff laugh emerged from my throat-I was an animal. Actually less than that. A carcass, a piece of dead meat being hung up, cut, tasted, and thrown about. Seriously, the girl can write a story. I felt every moment of pain and suffering that Emily experienced because of the stunning way that the story was crafted. I didn't want to continue reading on because it hurt my heart, but yet I devoured every word and phrase like I was starving for air. The pain had gone. No, it was there; my mind had faded it out in order to survive. What remained was weakness. That was how I felt. Too tired to fight. Afraid to fight. And God yes I wanted to be loved by him again. For him to hold me in his arms and take this nightmare away. Did I really think that? How could my mind even contemplate loving him after what he's put me through? But I did. I couldn't control it. He's swept me up and taken possession of my heart, even though he was now ripping it to shreds. But I wanted Logan to save me. I wanted the man I fell in love with to carry me away from this place. And I wanted him to carry me away..and then I then I wanted to kill him. I can only imagine how unsettled Emily's emotions were. How her life changed from moment to moment. Unsure of where she stood. If she would live. What she would be forced to do. How Logan would treat her. "Emily. You're my everything. Don't ever think you're safe with me. I f\*ck you because I need release, that's all you can be to me." I could seriously go on and on with these quotes,

because every page was riveting, but I won't want to give too much of the story away. Like I said, just when you think you know what is going on, something shifts and you are scrambling to find your footing again. To know what is going on and who to trust. All I can say is that this book is beautiful and mystifying all at the same time. This series was my introduction to the author, and she did not disappoint. Truly talented authors can suck you into the worlds that they create. Make you feel everything as if you are the one experiencing it. Break your heart and then glue it back together again. Make you cry and then make you laugh a moment later. She always has well-developed characters and story lines. She answers all of your questions without leaving you hanging, and has the ability to make you hate that you love someone so much. I have become a huge fan of this author, and I highly recommend her books.

This book was a little bit more hard for me to rate. While it is intriguing and the writing is very well, there is just more than enough stuff that make it not so good. From the main characters actions to the complete one eighty turns and the twists that seem to be randomly placed to make you "feel" more. Its just all over the place. There is no steady rhythm that I usually find in a well written book. Then there is all of the missing answers. I'm not sure if they might be answered in book 2 but its likely that they will not be since the main characters for that book are new and are side characters from this one. Overall I wouldn't discourage anyone to not read this series but I wouldn't go out on a limb and recommend it either. I will probably pick up the next book at some point but its not a huge priority on my list. The only reason I would is because I like to attempt to finish a series no matter how hard they are to get through AND like I previously stated, the writing is pretty darn good its just the plot + characters that were hit and miss.

Ok. Let me first preface my thoughts by saying that my review may contain some spoilers. Now! With that being said, I am soooooo glad that I didn't let a few reviews, negative I might add, keep me from reading this book. When I first read the novella, With You, I had no idea the direction this story was going to take. I have never read a book that provided an inside view of the gruesome and violent world of human trafficking and sex slavery. It is a world that exists and this story provided a glimpse into it. To say my heart broke for Emily when she was abducted and then discovered Sculpt's involvement is truly an understatement. But through it all, all is not what it seems. Emily survived because Sculpt made it so. Now, fast forward two years and Emily has barely put herself back together. This is the point of the book where I did agree with a couple of the other readers where they became a little upset with Emily and her inability to accept Sculpt's role in what

happened to her. But when she does.....MAN! The love that Logan has for Emily, she can finally feel, see and accept. She realizes that while he takes control of her, he gives her what she needs. He was always what she wanted him to be.....her knight.My suggestion to you if you are thinking about reading this book.....READ IT! You won't be disappointed. Are there some dark elements in this story that will make you cringe and possibly cry? Absolutely. But the love, care, protection and desire that Logan has for Emily will help erase that.Go ahead....read the book. You'll be glad you did.
