I loved this book honestly. It was super helpful in my degree and helped me learn a lot. I like the way the book is set up, which makes it easy to read and understand. But it didn't come in the condition it said it was. I bought it used which you can expect maybe a little wear because someone else used it but the seller said it was in perfect condition or like new. It was definitely far from. It was usable but the pages were super bent. It had writing in it all over, and a lot was highlighted. I would have preferred they said what it actually was like. I wanted to return it because it was frustrating to me that they lied but i needed it for school so i couldn't without missing homework.

The book has great examples of customer service issues. I found it helpful.

great book for my kid

Can't write much of a review. My class got canceled. From what I skimmed its basic learning that most people should know already about Customer Service

How to be a great Customer Service Representative

This is exactly what I needed! A great textbook for college courses.

The book was ok for the price.

This is the book I needed for my online class.It has some helpful information in it.Good book for the money.
