# Children Of Eden: A Novel

## Synopsis

The electrifying #1 New York Times bestselling debut novel from YouTube sensation Joey Graceffa dares to ask the question: What would you do in order to survive if your very existence were illegal? Rowan is a second child in a world where population control measures make her an outlaw, marked for death. She can never go to school, make friends, or get the eye implants that will mark her as a true member of Eden. Outside of Eden, Earth is poisoned and dead. All animals and most plants have been destroyed by a man-made catastrophe. Long ago, the brilliant scientist Aaron Al-Baz saved a pocket of civilization by designing the EcoPanopticon, a massive computer program that hijacked all global technology and put it to use preserving the last vestiges of mankind. Humans will wait for thousands of years in Eden until the EcoPan heals the world. As an illegal second child, Rowan has been hidden away from the ruthless Center government in her family's compound for sixteen years. Now, desperate to see the world, she recklessly escapes for what she swears will be only one night of adventure. Though she finds an exotic world, and even a friend, the night leads to tragedy. Soon Rowan becomes a renegade on the run. An instant #1 New York Times bestseller, *Children of Eden* is a thrilling and completely absorbing work from one of social media's brightest young storytellers. Taking the genre of dystopian fiction far beyond where it has traveled before, viral sensation Joey Graceffa's first novel introduces us to an empowering and endearing young protagonist and a world that contains as many perils as it does illuminating surprises, perfect for fans of the *Divergent* and *Maze Runner* series.

## Customer Reviews

I am absolutely in love with this book! I've started reading it and I'm already in love with the story and following Rowan on her journey for freedom. I am so happy Joey Graceffa had made this book and I do hope his dream comes true in this becoming a movie. I also loved the short film he made for the book. I'm just basically in love with all things "Children of Eden". Twitter: @christasophia01

Amazing book I suspected it to be another YouTuber book where they subtly plug their channel but it is not that, it's an amazing book and it isn't another space future apocalypse book. It's more than that and it is very well written I'm so proud of Joey and I'm not just saying this because I'm a fan, it is truly an amazing book. Twitter @AnnaSkies22 insta @AnnaSkies23

Most Amazing Book Ever! Definitely worth reading it! I highly recommend it to everyone to read it! It not only takes you to another place but takes you on a journey with a girl name Rowan. Joey has done so well in writing this book I hope there will be sequel because i know for a fact I will be reading that!

I bought this as a fan of dystopian novels and Joey Graceffa. The book has elements of other dystopian stories but also of ideas present in today's world. Overall, it's a great story and 100% would recommend it.
