This is a short pamphlet on astrology, written by Manly P Hall, an American esotericist with ideas broadly similar to those of Theosophy. It's not clear to me when this short text was written. The pamphlet mentions Hitler and Mussolini, and by implication Mussolini's death, but Pluto had not yet become the ruler of Scorpio. Perhaps it was written shortly after World War II? The current edition is from 1982. A Kindle edition also exists, but lacks the illustrations. Hall's pamphlet is pretty basic astrology 101. It's interesting only in the sense that it establishes Hall's own belief in a fairly modern interpretation of natal astrology. While there are 12 basic personality types corresponding to the sun signs, Hall does believe that a person can change with hard work and determination. All signs have both negative and positive qualities. The pamphlet emphasizes the negative ones, the author at one point saying that he doesn't want to be too indulgent to the readers (more specifically, readers born

in Cancer!). His interpretations of the various signs are more or less the standard ones. I won't reveal what interesting insights I might have gleaned even from this little work. ;-)  
However, I feel I just have to share the author's "dissing" of Gemini . Here goes!  
"It is from the ranks of the neo-intellectuals that we develop our parlor socialists, our "modernists" in poetry and letters, and those arm-chair anarchists who have theoretical explanations for every circumstance of living.  
( ) We are forced to remind the reader that Gemini is unusually conspicuous in the annals of certain types of crime. In the lower scale, Gemini, ruling the fingers, bestows a certain lightness upon them, resulting in pickpockets and forgers. Truthfulness in particular is difficult to Gemini people.  
For the record, I'm not a Gemini, while Hall was (of course) a Piscean!  
"Psychoanalyzing the Twelve Zodiacal Types" isn't very deep as astrology goes (you will find more information in many commercial and glossy volumes on the birth signs), it feels somewhat unfair to give it two stars, so therefore I give it three. After all, even an "initiate" like Hall had to explain the basics sometimes |

Very short, not really worth a whole book, more like an essay. Its ideas are also quite obvious to anyone familiar with Hall's general synthesizing style or with a more honest and esoteric implementation of zodiacal astrology. This understanding is still far superior to any casual astrology essay you'll read online by amateurs or your common 'professionals'.

I would actually give this a 4.5 for general knowledge. However, since Dr. Hall is referencing mundane houses and rulers vs the esoteric rulers of Alice Bailey and Dr. Douglas Baker, I cannot give it a 5.

Please do yourself a favor and purchase this kindle book, it will enhance your overall understanding of the cosmos and her relationship to human existence.

I was amazed when I compared each sign with the relatives and acquaintances how much this book matched each person, now I know why they are the way they are. This might make us to be not so quick to judge!!!

This book is informative. Enjoyed the read expect the Aquarian section. As an aquarian I wanted

more info on my quirky antics. :-)

Meh

This is an excellent take on analysis of the signs. I would not have expected less from MPH. All in all an excellent, even essential supplement to the divination tool box.
