Assessment Of The Lower Limb, 1e

Synopsis

This is a guide to the examination and assessment of the lower limb to facilitate accurate diagnosis and the planning of appropriate treatment. It should help the student develop an accurate picture of the state of lower limb viability and limb function; to arrive at a precise and accurate diagnosis; and to identify additional factors which may influence treatment. A section on different patient groups helps the student relate the principles they have learned to actual clinical situations. In addition, a list of references suggests ways for the student to follow up other avenues of study.

Book Information

Hardcover: 437 pages

Publisher: Churchill Livingstone (August 14, 1995)

Language: English

ISBN-10: 0443050309

ISBN-13: 978-0443050305

Product Dimensions: 1 x 8 x 10.2 inches

Shipping Weight: 2.6 pounds
