Sumatra 1:1,000,000 Travel Map (Indonesia)

Synopsis

Sumatra is the large island west of Java, and extends our detailed mapping of Indonesia by providing a vibrant map of a beautiful but earthquake-prone part of the Indonesian archipelago. Due to its shape and setting, the map also includes Singapore and the southern portion of the Malay peninsula. The two main access points to Sumatra are by ferry from Singapore via Batam Island, and from Java, or by air. This map also extends our islands of the world series, which includes Borneo, Bali/Lombok, Java, and New Guinea (in preparation). Touristically, Sumatra is not well-known, so is ideal for experienced travellers to explore. The island offers several hot springs, royal palaces, colonial towns, and national parks. The map also includes generous inset maps of Medan, Padang, and Palembang. An easy-to-use road map of Sumatra island. The best way to plan your trip, prepare your itinerary, and to travel independently on this Indonesian island.
