Terry Brooks Landover CD Collection: Magic Kingdom For Sale-Sold!, The Black Unicorn, Wizard At Large, The Tangle Box, Witches' Brew

Synopsis

Magic Kingdom For Sale – Sold!: Landover was a genuine magic kingdom, with fairy folk and wizardry. But after he purchased it, Ben Holiday learned that there were a few details the ad had failed to mention. The kingdom was in ruin. The task of proving his right to be King seemed hopeless. But Ben Holiday was stubborn... **The Black Unicorn**: A year had passed since Ben Holiday bought the Magic Kingdom from the wizard Meeks, who had set a series of pitfalls against him. But Ben had been troubled by dreams of disaster to his former partner, Miles Bennett. Unknown to Ben, the dreams had been a trap by Meeks. **Wizard at Large**: It all began when the half-able wizard Questor Thews announced that finally he could restore the Court Scribe Abernathy to human form. All went well - until the wizard breathed the magic dust of his spell and suddenly sneezed. Then, where Abernathy had stood, there was only a bottle containing a particularly evil imp. **The Tangle Box**: Horris Kew, conjurer, confidence-man, and trickster, had returned to Landover from Ben's own world. Alas, he had been sent by the Gorse, a sorcerer of great evil, whom Horris had unwittingly freed from the magic Tangle Box. Now it had returned to enslave those who had once dared to condemn it. **Witches Brew**: The Magic Kingdom of Landover was finally at peace, and Ben and his wife, the sylph Willow, could watch their daughter Mistaya grow. But his idyll was interrupted when Rydall, a king of lands beyond the fairy mist, assembled armies on Landover's border and threatened to invade.

Customer Reviews

Terry Brooks published his first novel, *The Sword of Shannara*, in 1977. It was a *New York Times* bestseller for more than six months. He has published twenty-five *New York Times* bestsellers since. Two of those--the novels *Running with the Demon* and *A Knight of the Word*--were chosen by the *Rocky Mountain News* (Denver) as among the best fantasy novels of the twentieth century. A practicing lawyer until his third book was published, Brooks now writes full-time. He lives in the Pacific Northwest with his wife, Judine.

I loved this series of books when I read them 20 years ago, was looking for an easy entertaining read and these fit the bill loved the characters and story line, I do a lot of Traveling and wanted some more books on Disk to pass my time, had forgotten how much I liked these books, Simple pleasures simple minds what can I say, I was entertained and able to escape this world for a few hours.

I was lent the book "Magic Kingdom for Sale" while on a vacation, I could not put it down. I enjoyed it so much that I got my own Book in paperback and Kindle versions. I was a little skeptical about the CD version since I do not always like the voice or inflections of the reader but I took a chance when ordering this. I am pleasantly surprised, this is a nice change of pace being able to listen to this on my way to work each day and actually looking forward to continuing the saga. I agree with other posts about the story when read in a whisper, you need to turn up the volume to hear what is being said, especially if playing in the built in car CD.

dick hill has a very good voice and does not get over dramatic. some readers detract from a story when they get carried away--but not hill. i especially enjoyed everytime he spoke as strabo, the dragon. since i have read terry brooks, i expected that i would like the stories. with 5 books and many, many hours of listening in this package, you had to have a good reader--hill was very good.i will let other people debate which of brooks' series is best (yes, i read the shannara series). i am glad that this package was available to take me to landover for the many hours i drive all over. as exciting as counting cows or the alphabet game may be, listening to good stories such as these made the miles pass much more quickly.

this story is totally captivating! The characters are awesome! My kids love it so much that when its one I have complete peace... Small price to pay for so many hours of peace if you ask me!

I am not a big fantasy reader (horror is more my style) but took a shot at this series because it was both a good value for the money and the premise is unique. I have enjoyed hour after hour of listening to this series in my car to the point that traffic really doesn't bother much. Sadly, I am on my last CD right now. I will miss the company I have had on my rides to and from DC and may just look for more Terry Brooks books on CD to help with my commute. The narrator did a great job and is consistent throughout the series.

Love the CDs, Terry Brooks is one of my favorite authors, and the Land Over set are just fun. I like to listen to audio books on long drives, and this set is great for the family. The set is abridged but works out with 5 of the six books of Land Over. Young ones will enjoy these stories as us old ones. Who would not, after all, You have wizards, witches, a dragon, Fairy People, demons, and a man whom buys A Magic Kingdom only to find out things are not what they seem to be. The reader, Dick Hill is superb. I recommend this set to any one along with Terry Brooks's other books "The Sword of Shannara".

Favorite book series of mine, but I got it for the kid to let her know there are other, older, science fiction series besides Harry Potter. I keep trying to get her to READ in PRINT Sword of Shannara. I must have bought that book 12 times in my life, tore it up, and will buy her ten copies if she reads it.

I enjoyed these audio books in my car running around town or visiting friends out of town. I never took them in the house. Sometimes I sat in the car a bit after I parked to finish a theme or thought. (I didn't make special trips to hear, though the thought crossed my mind.) This was a magical world with a modern man who managed it very well. I love Terry Brooks imagination.
