#### **Customer Reviews**

This is a motivational book about leadership and development in the church. The author is Craig Groeschel who planted the LifeChurch.TV. This was an successful plant in the Oklahoma City area. He is more of an emergent church leader and author. The book does not bring new insights into church leadership but the book does provide overwhelming motivation to reach out into the world for Christ. The book provides some practical reminders of the need for team work, humility, vision, trust, and passion for Christ. The book is a easy read which will motive the reader during some down time in the day. The stories in the book are excellent and Craig is honest in his approach to ministry. He talks about the ups and downs of leading a congregation. His book "Confessions of a Pastors" was excellent too. This book will provide the discouraged preacher some encouragement to continue to be aggressive in reaching souls within the community. For light read, during a dark week, this book will help. And maybe at the end of the book you will discover what "IT" real is.

Craig is such an awesome Christian, and an honest to goodness funny interesting, and introspective writer. I think this book would be good for you as a leader in any are church or not.

Craig tells you how to have IT, and you can have IT in the secular world as well as the church world. this is a must read.

It is an amazing book with ideas and creativity that makes your mind spin with new thoughts about how to do ministry more effectively. May God help us all to have "It"! Pierre Eadewww.christiangrowthnetwork.com

I have read a couple books by Craig Groeschel: "Weird" and "The Christian Atheist". I really enjoyed both books. "It" is okay, but this book never really says anything definitive. It makes a bunch of great observations. I am looking, however, for some concrete lessons that I can take back to my church and really use to grow our ministry. I will keep thinking on the points it does make, and perhaps I will be struck with an absolutely brilliant idea that transforms our small, aging congregation into something much more vibrant than what we have today.

This book nails "it." It clearly explains why a few churches and leaders succeed while many do not. This is a must read for church leaders and Christians who want to experience what it takes to be part of a flourishing New Testament church. This book details what God expects of His people.

This book is about the struggles of our lives. Most of them in ministry terms, but also in our personal lives. And, as I wrote in the headline, it's not about us at all. To have IT is to live totally for God. But it is not as hard as it sounds. Craig gives great examples and stories to explain it all. The book is very easy to read, and the topic is urgent. You'll laugh, you'll cry, you'll get it.

This book is for everyone, not just church leaders. Craig Groeschel bares his heart and soul to help the reader find IT, that intangible quality that spurs us on to help build God's Kingdom one person at a time. Have you been ruined? Do you need to be healed? You will find some answers here.

"It" is what we all long for, "It" is what we need, "It" is what we want, "It" is what everyone is looking for. Craig Groeschel has illustrated in his book how life should be so much better if we only had what it takes, "It". So many organizations exist for the mediocre, just making things comfortable for

the usual crowd. In order to have "it" we must first be willing to live outside our comfort zone full of passion for what we believe to be true. If you want your organization to have success, If you want to live an abundant life, If you want to live life with purpose, Craig's book provides some basic principals that if embraced will leave you excited and wanting to achieve greatness.
