Customer Reviews

441 pages - This thorough and comprehensive manual of band scoring is not only admirably suited for classroom teaching, but may be used for self-study as well...

I bought this for my husband to replace a copy that had been ruined by a burst pipe in our home. I was very happy to find the identical item at a reasonable price. It arrived quickly and was in very good condition.

A textbook. One of the best books on how to score for the concert and marching band. I lost my copy years ago, and wanted another. This one, although used was in very good shape, and priced right. The section, "Reference chart of keyboard idioms and patterns," is outstanding. Too bad this book hasn't been re-issued.
