Month-By-Month Gardening In Idaho

Synopsis

The Month-By-Month series is the perfect companion to take the guesswork out of gardening. With this book, you'll know what to do each month to have gardening success all year. Written by authors in your state, the information is tailored to the issues that affect your garden the most. When is the best time to plant trees and shrubs? Should I fertilize my lawn now? Is it time to prune my roses? What should I be doing in my garden this month? You'll find the answers to these questions and much more inside. This easy-to-use book highlights each of the ten major plant categories using a monthly format. It guides you through each month of the year, telling you exactly what your garden needs. It is like having an expert in the garden with you all year long. Valuable hints are located throughout the book, and beautiful photographs will inspire you. Written just for gardeners where you live, you can be confident that the information is right for you-and your garden will show it.

A regionally known gardening expert, radio and television host, author, columnist, and former horticulture specialist for Colorado State University Extension, John Cretti has more than 32 years of horticulture experience. John hosted the Gardening with an Altitude radio program for thirty years and has been an expert on Rocky Mountain Gardening for area TV and HGTV. His down-to-earth approach broadens the horizons of gardeners dealing with the unique and challenging climates of the region, where temperature fluctuations, wind, hail, unpredictable storms, difficult soils, and cunning critters are the norm. John has spent his life growing all kinds of plants, beginning as a child under the tutelage of his Italian grandmother, aunts, and uncle. This inspired his interest and passion for gardening while growing up in western Colorado. John is the author of several books for Cool Springs Press, including Rocky Mountain Gardener's™ Guide and Month-by-Month Gardening in the Rocky Mountains. Learn more about him at his website:

Great comprehensive guide for this non-Idahoian to follow for positive gardening results. I'm sure it's going to be my #1 go-to. Was recommended by a neighbor who has been in the area for several years, also a transplant from elsewhere and she said it's the best Idaho gardening book she's found. Bought one for my new neighbor who also is not from this area!

This is the best arranged gardening book I have found. The arrangement of information is a time saver as the reader can turn to the information needed quickly without searching.

We haven't gone totally through the book yet BUT seems chalked full of helpful information. Whether you are a first time gardener, relocating to a new area or someone who's been doing it for years I can see how this book would help. I may come back and re-review once I have more time to go through the book more.

In trying to figure out what grows, when in McCall, Idaho, this book assists in every way. Month by

month helpful steps to having a good growing season. Although the growing season is very short, there are native trees and shrubs that require some low maintenance, and this book gives you those tips, in order to have a great looking yard. Great price for such tips, shared knowledge, and problem solving.

It was a gift but my mother-in-law says it's been extremely helpful.

This is a wonderful book for keeping up with your gardening tasks each month. Nice to not have to look up the numbers for your region to decide where you are in the whole scope of things. The book is well layed out and easy to use. If you live in Idaho.....buy it!

Daughter should find this book to be very useful helpful.

We purchased a new book but looks as if it is a used book. Not bad though. Not written in but pages have been folded and the binder shows that it has been opened many times. But we will be using it a lot and it should hold up for a few more years.
