The Long Way Home

Synopsis

Major Samantha Davies is a warrior. After being abandoned by her father and raised in a foster home, she has made the Marine Corps her life. As a helicopter pilot she has excelled under the demands of her career. Always a fierce competitor, she now faces her toughest challenge...living with a disability that threatens her career and dealing with survivor's guilt that threatens her emotional stability. Lieutenant Commander Kristine Matthews is a highly skilled, combat experienced Navy Surgeon well accustomed to handling the worst destruction war can do to a person. One fateful afternoon their paths cross and their lives change forever. In a world where independence and strength are as valued as teamwork, and these two women struggle through rehabilitation, will they heal enough to live again and find happiness? Or will their shared experience destroy them?

Customer Reviews

This is a really good story. Why only four stars? Because of two things: There were some spelling and grammatical errors that shouldn't have happened, and The book would have been a bit shorter

but for page after page of love scenes. It's evident that Sam and Kris love each other and love being together sexually. The author writes these scenes nicely, but there are way too many of them. It took forever for Sam to find out Kris' secret. I kept thinking it would happen any minute, but it didn't. Still, the story was well done and it seemed technically authentic. The characters were believable and the plot moved along without any lulls in the action.

I like to read books about how veterans affected by traumatic experiences deal and succeed with traumas. This book is so good because it relates to two persons dealing with war inflicted scars, how they deal, fall in love, fight and overcome the traumas. The author takes us through all emotions up to the end. Excellent book.

The book kept my attention, but the writing seemed basic to me that's saying a lot for me as I truly don't usually notice the writing as long as it's a good story. The story was good, but certainly not lighthearted. I almost didn't buy it because the "about the book" sounded incredibly similar to a book that I read quite awhile ago. Officer hurt in Afghanistan links up with doctor/surgeon, etc. I can't remember the title of the other one (I read too many). All in all I thought it was an okay book. Just didn't float my boat much.

Two women, a Marine Corps helicopter pilot, and a Navy doctor, have a harrowing encounter in Afghanistan which leaves both of them seriously wounded. They meet again in the States for recuperation and therapy. Their story of dealing with their physical injuries and trauma is fast paced, realistic, and compelling. They have both accomplished so much - Sam the Naval Academy graduate and pilot, and Kris the Naval surgeon - and may lose what they have. Compelling story as they find love with each other.

I liked this book because it read like true story with everyday average people with real life flaw and hangup about their bodies. A story that makes you want to believe in hope and real love.

A beautiful story told about love trust and hope 2 women with 2 story's that come together as one in the end. A page turner till the end. Helma

This was a very well developed story addressing issues that are not discussed in the mainstream. I really appreciate that the characters were perfectly beautiful regardless of their injuries. Loved their

inner strength to heal themselves.

I really enjoyed this story and thought it was really well written. I can't recommend this book enough it was that good.
