Customer Reviews

"Jenean is an "OG" in the adult coloring game... having published her first coloring book back in 2012, and currently has eight titles to her name and has sold over 90,000 books." Brit + Co, February 2016.

Artist Jenean Morrison has been designing and publishing her best-selling coloring books for grown-ups since 2012. Five of her eight books have been published internationally by traditional publishers in France, Italy, Brazil, Japan, and several other countries. Her books have been featured in/on the L.A.Times, Washington Post, CNN.com, Quartz, NBC Nightly News, BUST

magazine, Publisher's Weekly, Pure Wow, Buzzfeed and Pop Sugar. And Jenean has been profiled in both Tech Insider and Entrepreneur.com for her success as a self-published coloring book author. A full-time artist and creative business owner for 10 years, Jenean works from her Cooper-Young studio in Memphis, Tennessee. In addition to creating artwork for coloring books, Jenean creates designs for fabric, scrapbook kits, bedding, partyware and more. And Jenean's paintings can be found in the Bellagio, Mirage and Aria resorts in Las Vegas. Connect with her on Instagram--@JeneanMorrison--where she shares her creative coloring techniques and the day-to-day work and play of being a designer and artist. And visit her website (jeneanmorrison.net) for color and design inspiration. She is a homebody who loves to travel and a playful spirit who loves to work. Her passion for her work shines through in every design!

I've collected and colored in a lot of the 'grown-up' coloring books. This one is exceptional. The shapes are wonderful, the line weight(s) are great. The paper is great quality, nice and white to keep colors vivid. Designs range from fairly basic to very intricate. There are several in here which will take some serious time to complete. Designs themselves have flowers, squares, angular, rounded, kaleidoscopic patterns. All well thought out. This book reminds me of my Ruth Heller books, and that is a compliment-and-a-half, believe me. After all of these important features, the best one I've left for last -THE PAGES ARE ONE-SIDED!!!!!!!!!!!!!! Jenean, I'm a marker person, and you are my hero. I weep at the altar of your amazingness and eagerly await my next book of yours! 50 designs + 1 sided pages = happy marker peoples! :)

I love this book my only "problem" is after I'm done I want to do it again highlighting different parts. The pages are sturdy, they take color from my variety of markers and pencils. Only one wish, please perforate the pages, it is hard to rip them out smoothly.

I am 25 years old and I won't lie I love to color. I find it to be relaxing after a long day's work. This book has many different designs which allows for all kinds of color options and patterns. Would recommend for the older child up to adults. Not for very young children as there are small spaces to be colored. Great with markers rather than crayons.

This is a really great coloring book! This is a really great book for someone who is just starting their journey into the realm of adult coloring (although kids could totally color in this book as well!). Jenean has a little of everything. There are easy designs. There are very intricate designs. There

are some paisleys. There are some mandalas. There are geometric designs. Every single one is well drawn and are very enjoyable to color. It has been said before, but worth saying again: The designs are all on one side of the page so marker users don't have to worry about ruining a picture on the other side. This is never a problem for me as I like to color on cardstock anyway, but it is a great feature. I like using ultra fine Sharpies or Bic Mark Its, but I'm sure that other markers or colored pencils would do just fine as well. I totally recommend giving this book a try!

This book is just ok - if you like this author's style, you'll probably be a fan of this book. I find a lot of the patterns in here very repetitive and difficult to color (lots of patterns with overlapping elements). But my main grief with this book is the paper quality. It's just not good! If you're using markers, they bleed like crazy, not just through the back of the page (not a big deal to me because this is single-sided printed and I'll use a blank sheet of paper as a blotter) but your markers will bleed all over the lines too! The extra fine tipped sharpies and bic markers work well and won't bleed over the lines as the tip is so fine, but your typical fine Bic or Sharpie markers WILL bleed like crazy (and you'll need to use these because there are some big areas to color).

I absolutely love anything by Jenean Morrison! Her coloring books are incredible, I have several. Her designs are amazing and will easily keep you entertained for hours. She is creative and it shows in every one of her pictures, which are only printed on one side of the paper! She also has notebooks and journals for sale that are so well put together; making any art project or design project, so simple to lay out ...or, because of the different sizes, you can carry them everywhere with you and use them to doodle, take notes, write stories, poetry, journaling, etc....

I take pages from this book along with color pencils to appointments and other places where I have some wait time. Everyone who sees these pages and the colors comments very favorably. I find the coloring to be calming and I am getting better at planning out the color schemes and concentrating on it and other chores as well. A fine way to pass the time and have a nice item for display later on.

Jenean Morrison does it again!! I only colored a few pages into Pattern and Design Volume #1 before I knew I had to buy #2. I really enjoy these books. They have a little bit for everyone (easy, challenging, mandalas, paisleys, geometric, flowers etc). The designs are well drawn and really fun to color. Of course they are one-sided so you can color with markers without worrying about ruining the back. As with most paper, markers will probably bleed so put something behind the page you

are coloring and you should be fine. I personally like coloring on cardstock so this isn't an issue. Ultra fine Bic Mark Its work great! I've also used ultra fine Sharpies. Gel pens look pretty snazzy too! I haven't even finished the book yet but I will keep a hopeful eye out for a Volume 3 :)
