## Customer Reviews

This is for 4th - 8th grades. As a homeschool mom I could see using this with a 3rd grader and also with a 9th/10th grader as a intro and then to be expanded upon with a "search" for more words that use the same roots. My only complaint is I WANT MORE! Either a book two or three or more added to this book. These worksheets are self explanatory and can be utilized for both self teaching, one on one teaching or for learning as a group. Worksheets include: Introduction of root in a fun fill-in-the-blank way. Complete the sentences and draw a picture for understanding. Crossword puzzle. Student-made word cards---reminder cards. Picture cards to cut and paste to an index student made word card. (These can be colored or even enlarged for a chart or folder project.) Review games. roots include...aqua, bio, gen, mater, spec, cogn, loc, nat, ped, sign, aud,

nov, pel, mand, trib....and many more.

Nice intro and great format for learning Greek and Latin roots. We have been working with this book for a little bit now and my student appears to be retaining what we are learning. I do add a little more to the pages than what they have here. I like the easy to follow format and the way it is organized.

Nice work!

Had hoped this would work for my 5th graders, but it's a bit too high level for them.

Nice, straightforward lessons. Nicely organized set.

I cannot wait to get to this in our curriculum this year, now I need to find prefixes and suffixes =)

Easy follow curriculum, fun worksheets, great to add with world history lesson Very satisfied.

Great for studying for the GRE. Or SAT

Great workbook for teaching root words for beginner or intermediate spelling! Fun and so necessary for grasping where words originate from!
