# Urban Music Education: A Practical Guide For Teachers

## Synopsis

The prevailing discourse surrounding urban music education suggests the deficit-laden notion that urban school settings are "less than," rather than "different than," their counterparts. Through the lens of contextually-specific teaching, this book provides a counternarrative on urban music education that encourages urban music teachers to focus on the strengths of their students as their primary resource. Through a combination of research-based strategies and practical suggestions from the author's own experience teaching music in urban settings, the book highlights important issues for teachers to consider, such as culturally relevant pedagogy, the "opportunity gap," race, ethnicity, socioeconomic status, musical content, curricular change, music program development, student motivation, and strategies for finding inspiration and support. Throughout the book, the stories of five highly successful urban music teachers are highlighted, providing practical, real-world advice for music teachers across the domains of general, choral, band, and string music teaching. Recognizing that the term "urban" can encompass a wide variety of different school and community settings, this book challenges all teachers who work in under-served and under-resourced settings to take a critical look at their own music classroom and work to tailor their pedagogy to meet the particular needs of their students.

Kate Fitzpatrick-Harnish, Ph.D., is Associate Professor of Music Education at the University of Michigan. She has published and presented nationally and internationally on the topic of urban music education. An avid supporter of public school music programs, Fitzpatrick-Harnish is the former director of instrumental music at Northland High School in Columbus, Ohio, where she directed the district's largest band and orchestra program. Fitzpatrick-Harnish was the recipient of the 2003 God and Country Award, presented by the Salvation Army and the Brass Band of Columbus for her "outstanding, sensitive leadership of young people."

I have read several books on teaching urban music education, but this book was different! In its 125-page easy-to-read text, the author shares much of her experiences teaching in the Columbus Public Schools. She also included 5 of her music education colleagues who teach in urban schools. Throughout the book there are several "share-out" sessions from each of these teachers from their various backgrounds of elementary classroom music, high school choir, middle school strings, high school band and mariachi. In addition to specific strategies shared in all of these settings, there is a great chapter about defining your program's success which includes a personal reflection section of the vision you have for your program and its

impact on students. As an experienced teacher in an urban educational setting, I found new ideas that I plan on implementing next school year. This is a book that I will require all of my future student teachers to read. It is a MUST-HAVE for your library regardless of where or to whom you teach!

This book is a GODSEND for gathering empirical research for my dissertation. Written with the sensitivity of one who has experienced teaching music in urban settings but from a very honest perspective, and this is the main reason that I love it so much.

This book encouraged, inspired, and informed me on my journey in urban arts education. I came away with new ideas and resources. Highly recommend!

Great book. Useful to any and all music educators. The practices and approaches span a wide variety of "urban" settings, and can be applied to any teaching situation. Highly recommend it!
