My nephew loves Wild Kratts and now that he is working on reading. He nephew is 7 and just started 1st grade so he just starting to read books on his own. The book is a little above his current reading level but I like that he has something to work towards while reading these books. It has a good amount of words he can read on his own with several that he has to sound out and work on figuring out what the word is.

My kids love, love, love Wild Kratts! This was a great book to encourage my emerging reader. I was

VERY disappointed in the binding of this book though. On the first day two pages fell out and had to be taped back in. Subsequent pages have continued to fall out and I have had to tape them in, resulting in a very lumpy, uneven book.

My 6 year-old son isn't crazy about sitting down to read, but he loves Wild Kratts, and he loves these books! Even my 2 younger daughters come to listen when he reads these. They are full of good factual information and are entertaining as well. I hope they make more!

love this book and others by Wild Kratts. very very clever concept to use "creature powers." It's brilliant and so educational. The animals are not just your average zoo animal: They really teach the entire family about animals and their unique differences.

Gift for my nephew. Perfect for a kid who loves the Wild Kratts!
