I have been studying Jehovah Witnesses for several years, I have found this book to be the BEST in my library . It is a easy read and gets straight to the point. I asked some questions to JW I met while I was out and about . While she was looking to answer, she only could find Jesus. It was great. This is a must buy . It was great to see this lady be able to read the bible for herself and not through the eyes of the organization. Best tool in my Library. I thank the author for writing this book

This was a Christmas requested gift. They were happy with it!

For me the book is very helpful.

This is one of the better books for me that is a non-reader because it was easy to get through. The topics were fast paced. The negative that I have with the book is that it focused too much on the "great crowd" and not other subjects. There were times that the author would poke a stick in Judge Rutherford's side now and again and it left the taste of bitterness in my mouth, otherwise was an informative book.

This book is a book of Love written by Love. It is two dynamic stories in one book. First it is a journey of a man who wanted nothing more than to prove his religion right. But as he compared the

Jehovah's Witnesses doctrine with the Word of God, the Witnesses doctrine crumbled before his eyes. You will feel his pain as he discovered he was living in darkness, and you will rejoice in the Lord as you see him come to know Jesus. The second dynamic story is the powerful message of 20 questions that Jehovah's Witnesses cannot answer. These are 20 questions that should lead every honest seeker of truth to see the error of the Watchtower Society while being directed to the life-saving truth of Jesus Christ. Be careful. Once you start reading this book, you will not be able to put it down.

My grandfather is a retired Baptist Preacher. He has a library of reference material that he studies daily. He loves this book and wants to purchase them to distribute to friends and family.

I like the book. It explains everything about Jehovah Witnesses and what they believe. Good book.

Sadly today even with the knowledge and technology people are still misled. This will help me the next time a Witness come to visit. I will ask for them to give a chance to ask questions and share my faith.
