Customer Reviews

They started out on a bumpy road then it got really bad for them. Started with a great story but ended too soon.

A story of Orphaned girls finding the men that were to be their husbands. A great book to read and enjoy historical western romance telling of traveling across this great country to see the big cities that had been built. I am looking forward to the next book in this series from a delightful author who keeps me wondering what next for the characters. A must read from at a special price.

I enjoyed this story of adventure and romance by Ms Katie Wyatt. The author did a wonderful job of telling her tale of orphans as Mail Order Brides. Well put together.

This is a very good clean and great story, looking forward to the next book. Each one of these orphan girls live very different lives now. I recommend this series.
