Personality

Synopsis

This proven text fuses the best of theory-based and research-based instruction to give readers an illuminating introduction to personality that is accessible and understandable. The author pairs "theory, application, and assessment" chapters with chapters that describe the research programs aligned with every major theoretical approach. Biographical sketches of theorists and accounts of the stories behind influential research programs help readers gain an understanding of how classic and contemporary findings relate to each other, and reinforce the idea that theory and research perpetuate one another. In-text self-assessments encourage readers to interact with the material and allow them to learn more about their own personality.

Customer Reviews

Jerry M. Burger is a professor of Psychology at Santa Clara University. He is the author of dozens of journal articles and book chapters, as well as the books **DESIRE FOR CONTROL: PERSONALITY, SOCIAL, AND CLINICAL PERSPECTIVES** (1992) and **RETURNING HOME: RECONNECTING WITH OUR CHILDHOODS** (2011). He has served on the editorial board of several major journals, including the *Journal of Personality* and the *Personality and Social Psychology Bulletin*, and as an associate editor for the *Personality Processes and Individual Difference* section of the *Journal of Personality and Social Psychology*. Dr. Burger continues to teach the personality course, and **PERSONALITY, 10th Edition** reflects his many years of experience.

Book is rented and got it ripped, the binding is falling apart, there is papers all in it. Horrible

It's a textbook... Not sure how people would leave raving reviews for a textbook. But, It came in good condition for a good price.

This book is in terrible condition ... not only is it falling apart, it has missing pages and can hardly stay together. This book needs to be destroyed.

brand new!!! Got it really quick.

Exactly what I needed for class. I love that allows me to rent and get it onto my computer rather than just on my tablet.

One of the best undergrad books I have had the pleasure of using. I enjoyed it so much, I bought it for my collection!

Overpriced

Good condition
