The Essence Of The Heart Sutra: The Dalai Lama's Heart Of Wisdom Teachings

Synopsis

For more than two thousand years, the Heart Sutra has been part of the daily life of millions of Buddhists. This concise text, so rich and laden with meaning, concentrates the very heart of Buddhism into a powerful and evocative teaching on the interdependence of all reality. In *Essence of the Heart Sutra*, the Dalai Lama masterfully unpacks the Heart Sutra so that any reader can benefit from its teachings - teachings meant to help us release ourselves from suffering and live with true compassion. Comprised of his "Heart of Wisdom" talks, originally delivered to thousands of listeners in 2001, the book offers the Dalai Lama's commentary as well as his easy-to-follow overview of Buddhist philosophy that places the sutra within its historical and philosophical context. With additional contributions by scholar and translator Thupten Jinpa, *Essence of the Heart Sutra* is the authoritative presentation of a text seminal to the world's religious heritage.

In *Essence of the Heart Sutra*, the Dalai Lama translates and interprets a central teaching of Buddhism with his trademark precision and straight talk. In the Heart Sutra, the bodhisattva Avalokiteshvara describes how to train in the perfection of wisdom by seeing through the illusions of all things. The Dalai Lama goes through the text passage by passage, after an extensive introduction to the basics of Buddhism and the Mahayana tradition's emphasis on emptiness. This doesn't take long, as the entire sutra covers all of three pages, but the Dalai Lama shows how understanding emptiness is a key to happiness and liberation from suffering. Although *Essence of*

the Heart Sutra does not differ significantly in overall message from previous offerings such as *The Meaning of Life* and *An Open Heart*, in this book the Dalai Lama stays focused on the relevance of the Heart Sutra, and who better to explain it than the man reported to be the present-day incarnation of Avalokiteshvara himself. --Brian Bruya --This text refers to an out of print or unavailable edition of this title.

"Lovingly and wisely edited by Jinpa, the bulk of the book is consumed with a fairly meaty exploration of the Heart of Wisdom sutra, a classical Mahayana text, and as such will be useful to established practitioners as well as neophytes." (Publishers Weekly)"In this volume, the Dalai Lama demonstrates how the core teachings of Buddhism and other major schools of thought are contained within the text of the Heart Sutra. [In fact,] the worldview in these ancient teachings has an eerie resemblance to the world as described by 20th-century quantum physics. ... With his usual penetrating intelligence, simple humanity, humor and compassion, he advocates that we should maintain our own spiritual traditions (Hindu, Christian, etc) while learning from others. 'In family life, social life, working life, and political life, inner disarmament is, above all, what humanity needs.'" (NAPRA ReVIEW)"In the spring of 2001, the Dalai Lama spoke to an audience of 8,000 people in California. This book is a translation of that teaching. He begins with a morally stirring defense of the spiritual practice of unity saying that we are not strangers--all of us are human beings: 'Differences in belief, just like differences in experience, are minor compared to our common humanity. The essential thing is that we are all the same in being human--thinking, feeling and being aware. We all share this one planet and we are all members of one big human family.' Courageous words from a spiritual leader in exile. Stirring words from a wisdom teacher who refuses to give in to tribal hatreds and violence afoot all around the world. The Dalai Lama believes that all the world's religions must speak out in support of compassion, forgiveness, brotherhood, and sisterhood. That is why he also calls for global participation in inner disarmament by individuals and communities. In the second half of this volume, the Dalai Lama talks about the Heart Sutra and its emphasis upon emptiness as a prelude to compassion." This is a very well written exposition of the Heart Sutra. The Dalai Lama is one of the great teachers of Buddhism. No matter what your spiritual or religious beliefs are I think you will get something out of this book. For those who have only read or chanted the Heart Sutra I recommend you read this book as you will probably have a new understanding of it.

we are using this book for our study with a Buddhist group. We read it and discuss it. As with the Dalai Lama's beliefs, anyone can use the teachings for good in their lives

Hmmm, a remarkable book by a remarkable man on a remarkable sutra! The Heart Sutra is the essence of the Perfection of Wisdom class of sutras, which represent the "Second Turning of the Wheel of Dharma". That is to say, the second main set of teachings by the Buddha. The First Turning was on the Four Noble Truths. The Third Turning was on Buddha Nature. But the Second Turning was on the nature of reality, emptiness -- in other words, the important stuff! This is a hard literature, crystalized in the Heart Sutra, which is only a few pages but very dense (versions of it are available on-line). Here the Dalai Lama provides an excellent commentary on this difficult text by placing it within its entire Buddhist context. The result is that one is led step by step to the deepest understanding of this sutra, which is really the most profound element of the Buddha's teaching. Remarkably, then, this book can be grasped by the beginning student as well as much more experienced students. A crucial element in Buddhism is familiarization: going back over something again and again until it is understood very deeply, and then realized personally through meditation. So such approaches, that begin from the basics and move up to very profound topics, should not be seen as needless repetition, but as opportunities to really internalize the teachings. The style of His Holiness's language is always conversational, easy to read, and humorous. This is no exception. The book is also beautiful and a pleasure to read. Most important, it is a crucial teaching that can help transform our lives.

The Heart Sutra can be a bit of a shock to someone extending an inquiring toe into Buddhism for the first time. The book should be read slowly, with many pauses. It is a challenging read. It has become the center for my studies, but I have been a Zen Buddhist for seven years. The book is a translation, with editing, of discourses given by the Fourteenth Dalai Lama. For anyone interested in Buddhism as either religion or philosophy, or in the study of the great religions, it is a valuable buy.

For anyone trying to deepen their spiritual practice within the buddhist faith this book is a must have! The Heart Sutra is one of the most sacred texts in Mahayana buddhism, and if you have a hard time understanding the concept of emptiness this book should clarify your questions and set you up for a lifetime of practice!

What a beautiful way to read and understand the Heart Sutra. I am grateful for such an in depth exploration by such a master. I can only hope that all who read this may become closer to enlightenment

This is a beautiful book that contains the purest and delicious nectar of the Dharma of wisdom and ecumenism of His Holiness Dalai Lama, the Buddha of Compassion. It is a text for both beginners and advanced students who are trained and wants to delve into the Prajnaparamita teachings. It begins with an introduction full of information about the main topics of teachings of Lord Buddha and the origins and context of the Prajnaparamita texts. I only give it four stars because in the aspect of Emptiness the Dalai addresses it from a philosophical Madhyamaka perspective, typical of Gelug school. This a more difficult way to understand Emptiness and even more complex to integrate and perform through daily practice. Its a very intelectual way of approaching it, but I understand that he also represents the academic tradition of the ancient Nalanda.
